The Board was unanimous in favoring the admission of all Nevada high school graduates.

3 - Faculty Housing

During the informal report, the President said that a communication had been received from the local chapter of the American Association of University Professors calling attention to the fact that it was increasingly

difficult to employ satisfactory faculty personnel due to the housing difficulties since many of the promising young teachers put in as a condition that we guarantee housing, which we cannot do. They ask that we take some action in the matter and suggested the desirability of some sort of University sponsored housing agency and of the investigation of possible emergency housing units as well as more permanent housing plans. Especially mentioned by the Secretary of the American Association of University Professors was the possibility, because of a recent decision of Attorney General Bible concerning the investment of State funds, that some funds now on deposit might be available to University employees.

Old Business

- 1) Motion by Mr. Cahlan passed unanimously that \$2400 from the general funds of the University be applied to the salary of the Athletic Director (Coach) for the academic year 1948-49, as requested by the Board of Athletic Control at its meeting on April 2, 1948.

- 2) Motion by Mrs. Henningsen passed unanimously that the following rules and regulations concerning commercial enterprises on the Campus be adopted:
 - 1 - That no commercial enterprises be allowed to operate on the Campus using University facilities unless the proceeds go primarily toward the support of recognized Campus organizations, and that it be understood that such organizations should receive not less than 2/3 of the net proceeds from such operations, unless the organization concerned, with the approval of the Deans of Men and Women, shall specifically agree to accept a lesser percentage.

 - 2 - That vending machines be set up only with the approval of the Deans of Men and Women.

 - 3 - That no one be allowed to store or maintain stock of merchandise in any University building unless such merchandise is for the maintenance and operation of an enterprise as specified in paragraph 1 above.

 - 4 - That it be understood that these regulations shall not bar a laundry or cleaning establishment for maintaining a representative in the residence halls.

 - 5 - That it be understood that these regulations shall not bar a licensed food establishment from offering items of food in the Dormitories in the evening.

- 3) Tenure rules as passed by the Executive committee at its meeting on May 26, 1948 were unanimously approved.

- 4) Motion by Mr. Cahlan passed unanimously that Sec. XX and Sec. XXI of the Rules and Regulations for Guidance of Undergraduates be amended to read as follows:

XX. STUDENT CONDUCT

In the government of the University, the President and faculty rely chiefly upon individual and collective self-control and the sense of honor and of duty of students. Students are

expected to register promptly, to pursue their studies with diligence, to attend classes regularly, and to show both within and without the University such respect for order, morality, personal honor and the rights, both of person and of property, of others as is reasonably to be expected of good citizens. Those students who do not meet these requirements may, upon recommendation of the Student Affairs Committee, be suspended or expelled from the University by the Administrative Council.

1. Student Affairs Committee. The Student Affairs Committee, having representation from both student and faculty, has general supervision over all student affairs. The chief functions are (a) to serve in an advisory capacity in all matters relating to student conduct and activities; (b) to approve or reject any proposed student organizations; (c) to investigate any infractions of conduct or social codes, and to recommend corrective or disciplinary action to the proper student or administrative agency.
2. Degrees of Penalties. Infractions of the regulations and codes of the Campus may result in penalties ranging from reprimands by student organizations or University Administrators up to loss of credits, probation, suspension or expulsion from the University.
3. Social Conduct. It is expected that all students and organizations will familiarize themselves with the criteria contained in the Social Code of the University as adopted by the social organizations of the Campus, and as printed elsewhere in this booklet. In addition, the following general regulations of the University will apply to all appropriate instances.
 - (a) Use of Alcoholic Beverages. The Administration of the University of Nevada, in harmony with the laws of the State of Nevada and of the City of Reno, considers it contrary to the best interests of the University, of student life in general, and of the welfare of student organizations and individuals, for the following practices to be indulged: (1) The serving of alcoholic beverages at mixed social functions both on and off Campus, including dances, picnics and other social gatherings. (2) The excessive indulgence in alcoholic beverages at any time, or the appearance at any function of the University or of any student organization, either

on or off Campus, while under the influence of excessive alcohol. (3) The bringing of alcoholic beverages onto the Campus of the University, into the University buildings, or onto the premises or into the houses of fraternities or sororities. (4) The serving of alcoholic beverages at any general student celebrations, including post-election celebrations. (5) The existence on the Campus or among student organizations which are dedicated primarily to so-called good fellowship and to the indulgence in alcoholic beverages at their meetings or functions.

- (b) Enforcement. In the formulation of the above policies, it is not intended that any right, privileges or responsibilities of the various units of student government now extended by the Administration to student government shall be revoked or denied. Rather it is intended that within the framework of policy as announced, the social organizations shall cooperate with the Deans of Men and Women in working out methods for the effective enforcement of the policies within the various groups and throughout the student body. The Administration specifically reserves the right, however, in the event of failure of other methods of control, to invoke the following penalties: (1) Any student found guilty of flagrant violation of any of these regulations is subject to penalty, including suspension or expulsion from the University, at the discretion of the Administrative Council. (2) Any organization found guilty of gross violation of any of these regulations may, at the discretion of the Administrative Council, be barred from the University, or denied the privilege of pledging new members.

XXI. STUDENT SCHOLARSHIP

1. Scholarship Probation

- a. A student must be passing in at least 2/3 of his work or he may be placed on probation by the Administrative Council, unless he can show that his unsatisfactory record is due to reasons for which he is not personally responsible.
- b. A student may be placed on probation any time that his conduct warrants such action.

- c. A student who does not remove his entrance deficiencies before his second year of residence shall be placed on probation.
- d. Whenever a student fails for two consecutive semesters to earn a minimum semester average of 2.0 grade points, he may be placed on probation.
- e. While on probation, a student is subject to suspension if he does not reduce his grade point deficiency.

2. Penalties for Probation

- a. A student on probation shall not be allowed to register for more than 80% of the regular number of hours of his prescribed course.
- b. While on probation a student may not take part in intercollegiate debates or dramatics or serve on the staff of any student publication or become a candidate for any student office. It is the duty of the Student Affairs Committee to enforce this rule.
- c. Students placed on probation remain on probation until released therefrom by action of the Administrative Council. To be removed from probation, a student must raise his scholastic average to 2.0 grade points on his entire University record.

3. Suspension or Expulsion

- a. A student not passing in at least 1/2 of his work may be suspended from the University, unless his unsatisfactory record is due to reasons for which he is not personally responsible.
- b. A student who is on probation at the end of each of two consecutive semesters may be suspended from the University.
- c. If the class preparation, attendance or progress of a student toward a degree is deemed unsatisfactory, the student may be suspended from the University at any time.
- d. Students who have been suspended from unsatisfactory

scholarship can reenter only by application to the Administrative Council. If they are permitted to reenter, such students shall be on probation until released therefrom by the Administrative Council.

- e. A student who has twice been suspended shall not be permitted to register in this University.
- f. At the beginning of each semester the Administrative Council will be in session two days before registration begins for the purpose of hearing applications of students for readmission.

4. Class Conduct

- a. A student may be dropped from class at any time for negligence or misconduct, upon recommendation by the Instructor and with the approval of the Dean and of the Committee concerned.
- b. A student may be placed on probation, suspended or expelled at any time his class conduct warrants such action.
- c. A student may be denied the right to register again in a course taught by an Instructor, when in the opinion of the Instructor the student's past conduct warrants such denial. Such denial shall have the approval of the Dean of the College concerned.

5. Standards of Honesty. Students at the University are expected to maintain high standards of honesty and integrity. Any student, therefore, who is in any way dishonest in taking examinations or fulfilling other academic assignment, or who submits as his own work the work of another person, materials copied without proper credit from a book or periodical, or materials corrected or revised by someone else is subject to being dropped from his course with a grade of F and having his name submitted to the Administrative Council for disciplinary action. A flagrant violation of these standards or a second offense of any kind is almost certain to result in suspension or expulsion from the University.

5) Motion by Mr. Cahlan passed unanimously that paragraph 6 of Sec. XI, be amended to read as follows:

(Rules and Regulations for the Information and Guidance of

the University Faculty)

Emeritus Ranking

Each member of the staff of the University who goes on the retired list shall be given, during the remainder of his life, an emeritus ranking the same as his ranking during his final year of service. An emeritus Professor shall be a member of the University faculty with voice but not vote at faculty meetings.

- 6) It was the unanimous agreement that a financial statement for the biennium 1949-50 be prepared as last year and the President and the Comptroller were instructed to submit to the Regents at the September meeting a separate statement for each year, showing in detail the operation costs of each Department, Division and College of the University for the academic years 1946-47 and 1947-48.

New Business

Motion by Mr. Sheerin passed unanimously that, because of the increase in administrative duties due to the expansion of the University, it is evident that an Administrative Assistant to the President should be secured, and there be it

Ed Parsons, Architect, appeared before the Regents at 3:15 P.M. and presented plans for the Agricultural building, and suggested that, because of the railroad spur in the lower Campus, the buildings may have to be slightly changed in position, or the track moved so as to miss the corner of the proposed building.

Mr. Rogers, reporter, came into the meeting and remained until adjournment.

Board of Athletic Control

At 3:45 P.M. the Board of Athletic Control met with the Regents. Harry Frost, Chairman, presented Coach Sheeketski, who reported on eligibility rules for athletes, stating that, so far as the University is concerned, the eligibility rules of the Far Western Conference will be followed. Coach Sheeketski said that he hopes to have a Freshman football team next Fall, 4 games being already scheduled.

Graduate Manager Joe Mc Donnell and Basketball Coach Jake Lawlor called attention to the number of activities which take place in the new Gymnasium and the resulting difficulties with basketball practice for the Varsity.

Regarding improvements to University property and the payment thereof, it was agreed that financial arrangements would be made between the Comptroller and the Graduate Manager before such improvements are started.

It was agreed by the Board of Athletic Control that a copy of the minutes of their meetings would be placed on file in the President's office for the information of the Board of Regents.

Motion by Mr. Sheerin carried that the request of the Shrine be granted, provided that the University be properly protected against liability for personal injury and that a respectable charge be made for wear and tear, cleaning the Stadium, etc.

Parking and Traffic Regulations - At a meeting of the Blue Key Fraternity on May 18, 1948, a resolution was passed, as follows:

WHEREAS, the Blue Key Fraternity prior to the last war and since the last war has undertaken to establish and carry out traffic and parking regulations on the Campus, and

WHEREAS, before the war there were relatively few automobiles on the Campus, but since the war the number has reached more than 1000, and

WHEREAS, the attempt to patrol the Campus, issue citations to violators, and enforce the payment of fines thus incurred

has required an enormous amount of time on the part of the members of the organization and has at the same time fallen short of completely adequate control, and

WHEREAS, the successful administration of the parking and traffic regulations of the Campus in the future would require the sacrifice of too great an amount of time and energy needed by the members for successful scholarship;

BE IT THEREFORE RESOLVED, that Blue Key Fraternity does hereby petition the Board of Regents and the President of the University for approval of its relinquishment of all parking controls on the Campus, except for aid in registration of automobiles and in designating and marking off the parking areas.

BE IT FURTHER RESOLVED, that Blue Key Fraternity does hereby petition and urge that the Administration give consideration to the taking of whatever steps are necessary to provide for a full-time Traffic Patrolman either to be employed by the University and to work in conjunction with the University authorities, or, if feasible to be provided by the Reno City authorities for the effective enforcement of parking and traffic regulations on the Campus beginning in the Fall semester of 1948.

Comptroller's Report:

- 1) Heating Plant - The Comptroller reviewed, for the information of the Board, the situation and status of the proposed Heating Plant.

Motion by Mr. Cahlan passed unanimously that the Board of Regents request a joint meeting with the State Planning Board for a more complete and satisfactory understanding of the Heating Plant situation, and, further, that the Executive Committee of the Board of Regents sit in with the State Planning Board on any plans to be submitted to the State Legislature.

- 2) P. B. X. Switchboard - Information concerning installation, cost, space, etc. was distributed to the Regents. No action was taken since the Telephone Company cannot make installation for at least a year.

The meeting adjourned at 5:20 P.M. The next meeting of the Board was set for September 18, 1948 unless a special meeting is called by the Chairman.

HISTORY OF THE REGENTS OF THE UNIVERSITY OF NEVADA

The recent death of former Regent Frank Williams brought to light the fact that there was no complete record of those who had served on the Board of Regents.

For the information of the present Regents and to complete this phase of the history of the University, records have been compiled from the Nevada Statutes, the Journals of the Assembly and Senate, and from general election returns. Acknowledgment is hereby made to Hon. John Koontz, Secretary of State, from whose recent publication, "Political History of Nevada 1948", the returns of general elections were compiled.

In order to make this report intelligible and to clarify certain conditions that would otherwise be hard to explain, I have included various Constitutional and Legislative provisions concerning the establishment of the University, and particularly

concerning the election of Regents.

CONSTITUTIONAL PROVISIONS

Sec. 4, Art. XI of the Constitution provides:

Sec. 4. The Legislature shall provide for the establishment of a State University, which shall embrace Department for Agriculture, Mechanic Arts and Mining, to be controlled by a Board of Regents, whose duties shall be prescribed by law.

Section 7 of Art. XI of the Constitution provides:

Sec. 7. The Governor, Secretary of State and Superintendent of Public Instruction shall, for the first 4 years and until their successors are elected and qualified, constitute a Board of Regents, to control and manage the affairs of the University and the funds of the same, under such regulations as may be provided by law. But the Legislature shall at its regular session next preceding the expiration of the term of office of said Board of Regents, provide for the election of a new Board of Regents, and define their duties.

Evidently nothing was done by the Legislature to carry out the provisions of Sec. 7 Art. XI of the Constitution for the election of Regents until the legislative session of 1869.

LEGISLATIVE PROVISIONS

Chapter LXXX Statutes of Nevada 1869, provides:

Section 1. The Board of Regents shall consist of 3 qualified electors of this State. They shall be elected by the Legislature in joint convention on the 3rd Tuesday of the session, and shall hold their office for a term of 4 years, and until their successors are elected and qualified; provided, all vacancies occurring between sessions shall be filled by appointment of the Governor, and the person so appointed shall hold his office until the next session of the Legislature, when the vacancy shall be filled by election. The person so appointed or elected to fill a vacancy shall only fill the unexpired term of the person whose office was made vacant.

Under this Act, the Journal of the Assembly 1869, page 288, shows that the following citizens were elected as Regents for a term of 4 years:

Last Year

Name	Residence	of Term
C. N. Noteware	Carson City	1873
H. F. Rice		1873
C. C. Batterman		1873

The Legislature of 1873 should have elected successors to these Regents but evidently no action was taken.

The Legislature of 1875 (Journal of the Assembly, page 128) elected the following as Regents for a term of 4 years:

Name	Residence	Last Year of Term
C. C. Stevenson	Gold Hill	1879
W. C. Dovey	Carson City	1879
A. Helm	Carson City	1879

The Legislature of 1879 (Journal of the Assembly, page 47) elected the following as Regents for a term of 4 years:

Name	Residence	Last Year of Term
J. S. Mayhugh	Elko	1883
T. N. Stone	Elko	1883
W. W. Bishop*	Eureka	1883

*W. W. Bishop resigned and C. H. Sproule of Battle Mountain was appointed by the Governor to fill the vacancy until the 1881 session of the Legislature.

Chapter LIII Statutes Nevada 1881, provides:

Section 1. The Board of Regents shall consist of 3 qualified electors of this State. They shall be elected by the Legislature in joint convention on the 3rd Tuesday of the session and shall hold their office for a term of 4 years, and until their successors are elected and qualified. One of the Regents shall be so elected during the session of the Legislature held in the year 1881, and at the regular session of the Legislature every 4th year thereafter, and two of the Regents shall be elected during the session of the Legislature to be held in the year 1883, and at the regular session of the Legislature every 4th year thereafter; provided, all vacancies occurring between sessions shall be filled by appointment of the Governor and the person so appointed shall hold his

office until the next session of the Legislature, when the vacancy shall be filled by election. The person so appointed or elected to fill a vacancy shall only fill the unexpired term of the person whose office was made vacant.

Owing to the vacancy on the Board of Regents, because of the resignation of W. W. Bishop, the Legislature of 1881 (Journal of the Assembly, pages 261-2) shows that S. H. Day of Carson City was elected as Regent for the term of 4 years; his term ending in 1885.

The Legislature of 1883 (Journal of the Assembly, page 59) elected the following as Regents for a term of 4 years:

Name	Residence	Last Year of Term
J. H. Rand	Elko	1887
E. B. Harris	Virginia City	1887

S. H. Day of Carson City being the hold over Regent until 1885.

The Legislature of 1885 (Journal of the Assembly, page 57) elected L. W. Getchell of Austin for a term of 4 years, to replace S. H. Day whose term had expired.

Chapter XXXVII Statutes Nevada 1887 provides:

Sec. 2. The Governor, Secretary of State and Superintendent of Public Instruction shall constitute the Board of Regents of the State University until the 1st day of January, A. D. 1889, and until their successors are elected and qualified. There shall be elected at the next general election, in the same manner as other State officers are elected, 3 qualified electors, who shall constitute the Board of Regents of the State University. The term of office of 2 of the Regents so elected shall be 4 years from the 1st day of January, A. D. 1889, and until their successors are elected and qualified. The term of office of one of the Regents so elected shall be 2 years from and after the 1st day of January, A. D. 1889, and until his successor is elected and qualified. And thereafter at each general election preceding the expiration of the term of office of any member of the Board of Regents a successor shall be elected in the same manner as other State officers are elected.

Under this Act, Governor C. C. Stevenson, Secretary of State John M. Dormer and Superintendent of Public Instruction W. C.

Dovey served as Regents until January 1, 1889.

Now, the question arises what became of Regent L. W. Getchell, who had been elected by the Legislature of 1885 to serve as Regent until 1889. This would indicate that the election of Regents by the Legislature was not constitutional. The following decisions of the Supreme Court would indicate that this was the case, and the Act of 1887 quote above was evidently passed by the Legislature to conform to the Supreme Court rulings.

The following excerpts from Nevada Reports indicate that Regents must be elected by popular vote only, and that their election by the Legislature was not constitutional:

In State vs. Arrington, 18 Nevada 412 it was held that "If the Constitution prescribes one method of filling an office, the Legislature cannot adopt another."

In State vs. Irwin, 5 Nevada 92 it was held that "the word 'elected' in its ordinary signification, carries with it the idea of a vote, * * * * *, and cannot be held the synonym of any other mode of filling a position." The word "election" in section 26 and "election by the people" in section 32 of Article 4 of the Constitution, contemplate the same mode of election and imply a popular vote.

In the general elections since, the following citizens have been elected to serve as Regents for the period indicated, and in each case (HO) indicates hold overs:
