INTRODUCTION

BACKGROUND

The Nevada System of Higher Education (NSHE) is a state-supported, land grant institution established by the Nevada State Constitution of 1864. It began instruction in 1874. NSHE is fully accredited by the Northwest Association of Schools and Colleges. Nine separate institutions comprise the NSHE and include:

- University of Nevada, Reno (UNR)
- University of Nevada, Las Vegas (UNLV)
- Nevada State College (NSC)
- Desert Research Institute (DRI)
- Truckee Meadows Community College (TMCC)
- College of Southern Nevada (CSN)
- Western Nevada College (WNC)
- Great Basin College (GBC)
- Nevada System of Higher Education Administration

There are eight controllers' offices within the NSHE located in Reno, Carson City, Elko, Las Vegas and Henderson.

The controllers' offices are responsible for the financial management of research grants. The Office of Contracts and Grants within the respective controllers' offices are responsible for the maintenance of financial records and compliance with terms and conditions of the grants that are generally applicable. Compliance with terms and conditions applicable to certain grants and other agreements is the specific responsibility of the relevant principal investigator.

In addition to the controllers' offices, one business center (Business Center North (BCN) in Reno) and purchasing offices at UNLV and CSN provide the purchasing and property management functions for the NSHE institutions.

The major units of UNR include the College of Agriculture, Biotechnology and Natural Resources, College of Business Administration, College of Education, College of Engineering, College of Human and Community Services, College of Liberal Arts, College of Science, Cooperative Extension, Graduate School, Reynolds School of Journalism and the School of Medicine. UNR offers major fields of study leading to baccalaureate and advanced degrees through the academic departments in the various schools and colleges.

UNLV offers major fields of study in different academic departments leading to baccalaureate and advanced degrees through academic departments in the following colleges and schools: Business, Education, Fine Arts, Graduate, Division of Health Sciences, Honors, Hotel Administration, Liberal Arts, Sciences, University College and Urban Affairs. UNLV is also home to a Dental and Law school.

Research activities are conducted primarily at UNR, UNLV and DRI. NSHE has been awarded research grants by various Federal agencies. The primary agencies from which these funds were received during the year ended June 30, 2013 were:

- Department of Agriculture
- Department of Commerce
- Department of Defense
- Department of Education
- Department of Energy
- Department of Veteran Affairs
- Environmental Protection Agency
- Department of Health and Human Services
- Department of Homeland Security

Department of Housing and Urban Development

Department of Interior

Department of Justice

National Aeronautics and Space Administration

National Endowment for the Humanities

National Science Foundation

Department of State

Department of Transportation

In addition, student financial aid funds were received under the Federal campus-based and Pell programs.

Report on the financial statements

We have audited the accompanying financial statements of the business-type activities and the aggregate discretely presented component units of the Nevada System of Higher Education (the “System”) as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the System’s basic financial statements as listed in the table of contents.

Management’s responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We did not audit the financial statements of DRI Research Foundation, DRI Research Parks, Ltd., Truckee Meadows Community College Foundation, Great Basin College Foundation, UNLV Research Foundation, UNLV Rebel Football Foundation, College of Southern Nevada Foundation, and the Nevada State College Foundation, which statements collectively reflect total assets constituting 4.5% of the aggregate discretely presented component units total assets as of June 30, 2013 and total operating revenues of 4.2% of the aggregate discretely presented component units total operating revenues for the year then ended as described in Note 22 “System Related Organizations”. We did not audit the financial statements of DRI Research Foundation, DRI Research Parks, Ltd., Truckee Meadows Community College Foundation, Great Basin College Foundation, UNLV Research Foundation, UNLV Rebel Golf Foundation, UNLV Alumni Association, UNLV Rebel Football Foundation, College of Southern Nevada Foundation, and the Nevada State College Foundation, which statements collectively reflect total assets constituting 6.3% of the aggregate discretely presented component units total assets as of June 30, 2012 and total operating revenues of 5.1% of the aggregate discretely presented component units total operating revenues for the year then ended as described in Note 22 “System Related Organizations”. Those statements were audited by other auditors, whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these component units, is based solely on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the

audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Truckee Meadows Community College Foundation, Great Basin College Foundation, UNLV Research Foundation, UNLV Rebel Football Foundation, College of Southern Nevada Foundation, and the Nevada State College Foundation, were not audited in accordance with *Government Auditing Standards* for the years ended June 30, 2013 and 2012.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the System's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate discretely presented component units of the System as of June 30, 2013 and 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other matters

Required supplementary information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 11 be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. This required supplementary information is the responsibility of management. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America. These limited procedures consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the System's basic financial statements. The combining schedules of net position and combining schedules of revenues, expenses and changes in net position is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The schedule of expenditures of federal awards for the year ended June 30, 2013, as required by the U.S. Office of Management and

Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other reporting required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report, dated November 4, 2013, on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Nevada System of Higher Education's (the "System") annual financial information presents management's discussion and analysis of the financial standing as of June 30, 2013. This section provides a brief overview of noteworthy financial activity, identifies changes in financial position, and assists the reader in focusing on significant financial issues that occurred during the year ended June 30, 2013, with comparative information as of June 30, 2012 and June 30, 2011.

Since this discussion provides summary level financial information, it should be read in conjunction with the System's financial statements and accompanying footnotes that follow this section. Responsibility for the financial statements, footnotes and this discussion rests with System management. All amounts included in this discussion are presented in thousands of dollars.

SYSTEM AND SYSTEM RELATED ORGANIZATIONS

The System is a consolidation of the following 8 institutions of public higher education in Nevada and the Nevada System of Higher Education Administration entity:

University of Nevada, Reno
Desert Research Institute
Truckee Meadows Community College
Western Nevada College
Great Basin College
University of Nevada, Las Vegas
College of Southern Nevada
Nevada State College

This annual financial report and statements include the above institutions of the System as well as certain other organizations, also called component units, that have a significant relationship with the institutions. These component units are related tax exempt organizations primarily founded to foster and promote the growth, progress, and general welfare of the institutions. They exist to solicit, receive and administer gifts and donations for the institutions or, in the case of the University of Nevada School of Medicine practice plans (Integrated Clinical Services, Inc.), to facilitate patient care activities. The System component units are as follows:

Unaudited

University of Nevada, Reno Foundation
Athletic Association University of Nevada
University of Nevada School of Medicine Practice Plans (Integrated Clinical Services, Inc.)
Desert Research Institute Foundation
Desert Research Institute Research Parks LTD
Truckee Meadows Community College Foundation
Western Nevada College Foundation
Great Basin College Foundation
University of Nevada, Las Vegas Foundation
University of Nevada, Las Vegas Research Foundation
Rebel Golf Foundation
University of Nevada, Las Vegas Alumni Foundation
University of Nevada, Las Vegas Rebel Football Foundation
University of Nevada, Las Vegas Singapore
College of Southern Nevada Foundation
Nevada State College Foundation

Component units issue separate audited or reviewed financial statements from the System.

SYSTEM FINANCIAL HIGHLIGHTS FROM 2012 TO 2013 (in \$1,000's)

- Total net position increased 2.8% from \$2,242,297 to \$2,303,981;
- Capital assets decreased 1.6% from \$1,959,264 to \$1,927,684;
- Operating revenues increased 7.0% from \$746,339 to \$798,447;
- Nonoperating revenues increased 11.9% from \$612,245 to \$684,832; and
- Operating expenses increased 2.2% from \$1,394,809 to \$1,425,538.

USING THIS REPORT

This report consists of a series of financial statements prepared in accordance with the Governmental Accounting Standards Board Statement No. 35, *Basic Financial Statements-and Management's Discussion and Analysis-for Public Colleges and Universities*. These statements focus on the financial condition of the System, the results of operations, and the cash flows of the System as a whole.

One of the most important questions asked about System finances is whether the System as a whole is better off or worse off as a result of the year's activities. There are three key components to answering this question. They are the Combined Statements of Net Position; the Combined Statements of Revenues, Expenses and Changes in Net Position; and the Combined Statements of Cash Flows. These statements present financial information in a form similar to that used by corporations. The System's net position (the difference between assets and liabilities) is an important gauge of the System's financial health when considered with non-financial facts such as enrollment levels and the condition of the facilities.

The Combined Statement of Net Position includes all assets and liabilities. It is prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when a third party provides the services, regardless of when cash is exchanged.

The Combined Statements of Revenues, Expenses, and Changes in Net Position present the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. All things being equal, a public higher education system's dependency on state appropriations will usually result in operating deficits. This is because the financial reporting model classifies state appropriations as nonoperating revenues. The utilization of long-lived assets, referred to as capital assets, is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

Another important factor to consider when evaluating financial viability is the System's ability to meet financial obligations as they mature and come due. The Combined Statements of Cash Flows presents information related to cash inflows and outflows summarized by operating, capital financing, non-capital financing, and investing activities.

CONDENSED FINANCIAL INFORMATION

ASSETS AND LIABILITIES

The Combined Statement of Net Position (formerly known as Combined Statement of Net Assets) is a point-in-time financial statement presenting the financial position of the System as of June 30, 2013, with a comparison made to June 30, 2012 and June 30, 2011. This Statement presents end-of-year data for Assets (current and non-current), Liabilities (current and non-current), and Net Position (assets minus liabilities).

Assets

Total assets of the System remained fairly consistent, showing an increase of \$31.1 million, or 1%. The increase that occurred in current and other assets was offset by a decrease in capital assets. The increase in current assets is primarily due to an increase in the valuation of the short-term

investments accounts. The decrease in capital assets is reflective of the disposal of capital assets and normal depreciation for the year. The increase in other assets relates primarily to the increase in restricted cash and endowment investments due to the increase in market value, offset by the decline in cash held by State treasurer, receivable from State of Nevada, and pledges receivable.

Liabilities

Total liabilities for the year decreased by \$30.5 million; a \$4.7 million decrease in current liabilities and \$25.8 million decrease in non-current liabilities. The decrease in current liabilities was primarily due to a reduction in accrued interest payable. The decrease in non-current liabilities was primarily driven by a decrease in long-term debt due. Both of these reductions can be attributed to the refinance of outstanding revenue bonds for future interest savings.

Net Position

Net position is divided into three major categories. The first category, net investment in capital assets, provides the equity in property, plant, and equipment owned by the System. The next category is restricted net position, which is presented as two subcategories: nonexpendable and expendable. The corpus of nonexpendable restricted resources is only available for investment purposes. Expendable restricted net position are available for expenditure by the System, but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on the use of the assets. The final category is unrestricted net position that is net assets available to the System for any lawful purpose.

Net Investment in Capital Assets

The net investment in capital assets classification of net position represents the System's capital assets net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets. The \$2 million increase reflects the System's expenditures for development and renewal of its capital assets, offset by depreciation expense on capital assets and a net decrease in long-term debt. The increase is related to debt reduction associated with capital assets.

Restricted, Nonexpendable/Expendable

The System's endowment funds consist of both permanent endowments and funds functioning as endowments or quasi-endowments.

Permanent endowments are those funds received from donors with the stipulation that the principal remain inviolate and be invested in perpetuity to produce income that is to be expended for the purposes stipulated by the donor.

Unrestricted Net Position

Unrestricted net position increased by \$39.3 million in 2013. Although unrestricted net position is not subject to externally imposed stipulations, substantially all of the System's unrestricted net position has been designated for various academic and research programs and initiatives, as well as capital projects. Funds functioning as an endowment consist of unrestricted funds that have been

allocated by the System for long-term investment purposes, although amounts are not subject to donor restrictions requiring the System to preserve the principal in perpetuity. Programs supported by the endowment include scholarships, fellowships, professorships, research efforts and other important programs and activities.

The sixteen campus and athletic foundations, as System Related Organizations, continue to support the campuses in their long-range plans and provide support for construction of facilities as well as scholarships and other operating costs. Changes in the above schedule primarily reflect the foundations' increase in investment income and market value of investments. The remaining changes can be attributed to an increase in operating expenses and a decrease in payments to the System campuses.

REVENUES, EXPENSES AND CHANGES IN NET POSITION

Changes in total net position as presented on the Combined Statements of Net Position are based on the activity presented in the Combined Statements of Revenues, Expenses, and Changes in Net Position. The purpose of the statement is to present the revenues received by the System, both operating and nonoperating, and the expenses paid by the System, operating and nonoperating, as well as any other revenues, expenses, gains and losses received or spent by the System.

Generally speaking, operating revenues are received for providing goods and services to the various customers and constituencies of the System. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues and to carry out the mission of the System. Nonoperating revenues are revenues received for which goods and services are not provided. For example, state appropriations are considered nonoperating because they are provided by the Legislature to the institution without the Legislature directly receiving commensurate goods and services for those revenues.

System Revenues, Expenses and Changes in Net Position (in \$1,000's)

The Combined Statements of Revenues, Expenses, and Changes in Net Position reflect a steady year with the net position at the end of the year increasing slightly, but remaining fairly consistent with the prior year.

Operating revenues increased by \$52.1 million 7% and operating expenses increased by \$30.7 million 2%, resulting in a decrease in the operating loss of \$21.4 million (3%).

Operating Revenue - Student Tuition and Fees increased 4.5% to \$350.2 million as a result of the Board of Regents approved tuition and fee increases offset by a slight enrollment decrease. Federal grants and contracts experienced an increase of 2.8% to \$168.7 million while State, local and other grants and contracts increased 9.5% to \$74.1 million.

The increase in operating expenses was driven by increases in Supplies and Services expense and in Employee Compensation and Benefits. These increases primarily relate to the increases in grants and contracts and sales and services revenues.

Unaudited

Nonoperating net revenues increased by \$72.6 million. This was led by significant increases in investment income, net due to market fluctuation of \$56.7 million, and gain on the disposal of capital assets of \$15.4 million.

CASH FLOWS (in \$1,000's)

Net cash flows increased primarily due to an increase in proceeds from debt and a reduction in the purchase of investments. Cash used in operating activities increased due to increased payments to suppliers and for compensation and benefits. Net operating cash flows (amount of cash used in operating activities) increased 7.7%.

Cash flows from noncapital financing activities decreased \$12.1 million. This decrease was primarily related to the decrease in cash received from gifts and grants and federal grants and contracts, and the increase in disbursements under federal student loans programs. Cash flows used in capital financing activities indicated a decrease of \$21.9 million, reflecting an increase in proceeds from capital debt offset by an increase in principal payments. Cash flows from investing activities increased by \$72.9 million. This category generally reflects investing activities during the year.

CAPITAL ASSET AND DEBT ADMINISTRATION

As of June 30, 2013, the System had invested \$1.9 billion in a broad range of capital assets, including equipment, buildings, machinery and equipment, library books and media, art and other valuable collections, intangible assets and land. This represents a net decrease (including additions and deletions) of \$31.6 million over June 30, 2012.

During fiscal year 2013, NSHE issued \$145.3 million of new revenue bonds to refinance outstanding bonds for interest savings. As of June 30, 2013, the coverage on the University Revenue Bonds (pledged revenues to maximum annual debt service) was 5.02 times. For statutory purposes, the coverage was 1.57 times, above minimum required coverage of 1.10. Coverage for the System's University Revenue Bonds is based upon two formulas. The statutory coverage ratio is based upon pledged revenues described in Nevada Revised Statutes authorizing the issuance of revenue bonds. The second, comprehensive coverage ratio, is based upon all revenues pledged to the bonds (including the statutory revenues) in the bond resolutions adopted by the Board of Regents. The statutory and comprehensive coverage ratios feature different minimum coverage thresholds that govern the issuance of additional revenue bond debt. NSHE issued a total of \$16.3 million of notes payable during fiscal year 2013.

FUTURE FINANCIAL EFFECTS

In the recent years the demand for higher education services has stabilized, with some institutions showing slight growth and others reporting declines in enrollments. In FY 13, the System realized a net loss of student full time equivalent (FTE) enrollment of 1.6% (1,034 students) system-wide compared to FY 12. Student FTE enrollments increased at one of the State's two universities and the State College, and decreased at the other 5 institutions. Student enrollment counts are not yet available for the fall 2013 semester, but preliminary figures reflect that system-wide the number of FTE students will be essentially flat overall from fall 2012, with some institutions growing and others anticipating slight decreases in FTE students.

The Legislatively approved NSHE operating budget includes state appropriations and authorized expenditures (State Supported Operating Budget). The State Supported Operating Budget totals \$748.9 million for FY 14. This compares to a Legislatively approved budget of \$735.4 million in FY 13 and represents a 1.83% increase. General fund only allocations for NSHE grew by \$14.8 million from \$472.4 to \$487.2 million. In FY13, general fund appropriations accounted for approximately 64.2% of the total State Supported Operating Budget and in FY 14 general fund appropriations account for approximately 65.1%, with the upward change attributed primarily to salary and benefit restorations funded by the 2013 Legislature. The remaining revenue sources budgeted in the State Supported Operating Budget, including all non-appropriated sources, total \$261.7 million in FY 14 (34.9% of the total). This is a slight decrease in dollars of \$1.4 million and percentage of .5%, and is generally due to the decrease in enrollments and related registration fees.

As was the case in FY 13, student FTE enrollments will likely reflect moderate growth at some institutions in FY 14 and NSHE will be requesting the Interim Finance Committee, as authorized in Senate Bill 521 (2013 Legislature), for authority to expend student fee revenues generated in excess of budgeted levels due to enrollments exceeding projections in FY 14. These funds will be utilized to augment existing state budgets for the affected institutions.

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 1 – Organization:

The financial statements represent the combined financial statements of the various divisions and campuses of the Nevada System of Higher Education (the “System” or “NSHE”) which include:

- University of Nevada, Reno (“UNR”)
- University of Nevada, Las Vegas (“UNLV”)
- Nevada State College (“NSC”)
- College of Southern Nevada (“CSN”)
- Truckee Meadows Community College (“TMCC”)
- Western Nevada College (“WNC”)
- Great Basin College (“GBC”)
- Desert Research Institute (“DRI”)
- Nevada System of Higher Education Administration

The System is an entity of the State of Nevada (the “State”) and receives significant support from, and has significant assets held by the State as set forth in the accompanying combined financial statements. The System is a component unit of the State of Nevada in accordance with the provisions of the Governmental Accounting Standards Board (“GASB”) Statement No. 61, *The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and No. 34*. The System Related Organizations’ columns in these combined financial statements are comprised of data from the System’s discretely presented campus and athletic foundations and medical school practice plans, which include: University of Nevada, Reno Foundation, Athletic Association University of Nevada, Integrated Clinical Services, Inc., Desert Research Institute Foundation, Desert Research Institute Research Parks LTD, Truckee Meadows Community College Foundation, Western Nevada College Foundation, Great Basin College Foundation, University of Nevada, Las Vegas Foundation, University of Nevada, Las Vegas Research Foundation, Rebel Golf Foundation, University of Nevada, Las Vegas Alumni Foundation, University of Nevada, Las Vegas Rebel Football Foundation, University of Nevada, Las Vegas Singapore, College of Southern Nevada Foundation, and Nevada State College Foundation. These System Related Organizations are included as part of the System’s combined financial statements because of the nature and the significance of their financial relationship with the System.

The System Related Organizations include campus foundations which are related tax-exempt organizations founded to foster and promote the growth, progress, and general welfare of the System, and are reported in separate columns to emphasize that they are Nevada not-for-profit organizations legally separate from the System. During the years ended June 30, 2013 and 2012, the foundations distributed \$45,943 and \$51,932, respectively, to the System for both restricted and unrestricted purposes. Complete financial statements for the foundations can be obtained from Vic Redding, Vice Chancellor for Finance at NSHE, 2601 Enterprise Rd., Reno, NV 89512.

The System Related Organizations also include three legally separate non-profit organizations, together known as Integrated Clinical Services, INC. (ICS). ICS includes the University of Nevada School of Medicine Multispecialty Group Practice North, Inc., University of Nevada School of Medicine Group Practice South, Inc., and Nevada Family Practice Residency Program, Inc. ICS was established for the benefit of the University of Nevada School of Medicine and its faculty physicians who are engaged in patient care activities. During the years ended June 30, 2013 and 2012, ICS distributed \$3,660 and \$3,773, respectively, to the System for restricted purposes. Complete financial statements for ICS can be obtained from Vic Redding, Vice Chancellor for Finance at NSHE, 2601 Enterprise Rd., Reno, NV 89512.

NOTE 2 – Summary of Significant Accounting Policies:

The significant accounting policies followed by the System are described below to enhance the usefulness of the financial statements to the reader.

BASIS OF PRESENTATION

For financial statement reporting purposes, the System is considered a special purpose government engaged only in business-type activities. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the GASB, including Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, Statement No. 35, *Basic Financial Statements and Management’s Discussion and Analysis of Public Colleges and Universities*.

The financial statements required by Statement No. 35 are the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position and the Statements of Cash Flows. Financial reporting requirements also include Management’s Discussion and Analysis of the System’s financial position and results of operations.

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 2 – Summary of Significant Accounting Policies (continued):

BASIS OF ACCOUNTING

The financial statements have been prepared on the accrual basis of accounting whereby all revenues are recorded when earned and all expenses are recorded when incurred. All significant transactions between various divisions and campuses of the System have been eliminated. The financial statements are presented using the economic resources measurement focus.

CASH AND CASH EQUIVALENTS

All highly liquid investments with an original maturity of three months or less are considered to be cash equivalents. Cash held by State Treasurer represents the funds from certain state appropriations, which were enacted to provide the System with the funds necessary for the construction of major assets. Such amounts are controlled by the Nevada Public Works Board. These amounts are included in cash and cash equivalents in the Statements of Cash Flows.

INVESTMENTS

Investments are stated at fair value. Fair value of investments is determined from quoted market prices, quotes obtained from brokers or reference to other publicly available market information. Interests in private equity partnerships and commingled funds are based upon the latest valuations provided by the general partners or fund managers of the respective partnerships and funds adjusted for cash receipts, cash disbursements and securities distributions through June 30. The System believes the carrying amount of these financial instruments is a reasonable estimate of fair value. Because the private equity partnerships and private commingled funds are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ significantly from the value that would have been used had a ready market for such investments existed. Investment transactions are recorded on the date the securities are purchased or sold (trade-date). Realized gains or losses are recorded as the difference between the proceeds from the sale and the average cost of the investment sold. Dividend income is recorded on the ex-dividend date and interest income is accrued as earned.

INVENTORIES

Inventories consist primarily of bookstore and agricultural inventories, and other items held for sale and are stated at lower of estimated cost or market. Cost is calculated primarily on the first-in, first-out method.

PLEDGES

In accordance with GASB Statement No. 33, *Accounting and Reporting for Non-Exchange Transactions*, private donations are recognized when all eligibility requirements are met, provided that the pledge is verifiable, the resources are measurable and collection is probable. Pledges receivable are recorded at net present value using the appropriate discount rate. An allowance for uncollectible pledges is estimated based on collection history and is netted against the gross pledges receivable.

CAPITAL ASSETS

Capital assets are defined as assets with an initial unit cost of \$5 in the years ended June 30, 2013 and 2012 and an estimated useful life in excess of one year. Such assets are stated at cost at the date of acquisition or fair market value at date of donation in the case of gifts. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets acquired through federal grants and contracts where the federal government retains a reversionary interest are capitalized and depreciated. Interest in the amount of \$140 and \$845 was capitalized during the years ended June 30, 2013 and 2012, respectively. Depreciation is computed on a straight-line basis over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and improvements	6 to 40
Land improvements	10 to 15
Machinery and equipment	3 to 18
Library books	5
Leasehold improvements	shorter of useful life or lease term
Intangible assets	5 to 10

Collections are capitalized at cost or fair value at the date of donation. The System's collections are protected, preserved and held for public exhibition, education or research and include art and rare book collections which are considered inexhaustible and are therefore not depreciated.

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 2 – Summary of Significant Accounting Policies (continued):

UNEARNED REVENUE

Unearned revenue primarily includes amounts received from grant and contract sponsors that have not been earned under the terms of the agreement and other revenue billed in advance of the event, such as student tuition and fees and fees for housing and dining services, and advanced ticket sales for athletic and other events.

COMPENSATED ABSENCES

The System accrues annual leave for employees at rates based upon length of service and job classification and compensatory time based upon job classification and hours worked. Such accrued expenses have been classified as a component of employee compensation and benefits in the accompanying Statements of Revenues, Expenses and Changes in Net Position.

FEDERAL REFUNDABLE LOANS

Certain loans to students are administered by the System campuses, with funding primarily supported by the federal government. The System's Statements of Net Position include both the notes receivable and the related federal refundable loan liability representing federal capital contributions owed upon termination of the program.

NET POSITION

Net position is classified as follows:

Net investment in capital assets: This represents the total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net position – nonexpendable: Nonexpendable restricted net position consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purposes of producing present and future income, which may either be expended or added to principal.

Restricted net position – expendable: Restricted expendable net position includes resources which must be expended in accordance with restrictions imposed by external third parties.

Unrestricted net position: Unrestricted net position represents resources that are not subject to externally imposed restrictions. These resources are used for transactions relating to educational and general operations and may be used to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, restricted resources are applied first.

OPERATING AND NONOPERATING REVENUES AND EXPENSES

SYSTEM

Revenues and expenses are classified as operating if they result from providing services and producing and delivering goods. They also include other events that are not defined as capital and related financing, noncapital financing, or investing activities. Grants and contracts representing an exchange transaction are considered operating revenues.

Revenues and expenses are classified as nonoperating if they result from capital and related financing, noncapital financing, or investing activities. Appropriations received to finance operating deficits are classified as noncapital financing activities, therefore, they are reported as nonoperating revenues. Grants and contracts representing nonexchange receipts are treated as nonoperating revenues.

Functional classification of expenses is determined when an account is established and is assigned based on the functional definitions by the National Association of College and Business Officers' Financial Accounting and Reporting Manual.

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 2 – Summary of Significant Accounting Policies (continued):

INTEGRATED CLINICAL SERVICES, INC.

Net patient service revenue is reported when services are provided to patients at the estimated net realizable amounts from patients, third-party payors including Medicare and Medicaid, and others for services rendered, including estimated retroactive audit adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Contractual adjustments are recorded as deductions from professional fee revenue to arrive at net professional revenues. Contractual adjustments include differences between established billing rates and amounts reimbursable under various contractual agreements. Normal differences between final reimbursements and estimated amounts accrued in previous years are recorded as adjustments of the current year's contractual and bad debt adjustments. Substantially all of the operating expenses are directly or indirectly related to patient care.

FOUNDATIONS

Donations, gifts and pledges are recognized as income when all eligibility requirements are met, provided that the promise to give is verifiable, the resources are measurable and collection is probable.

SCHOLARSHIP ALLOWANCES

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances in the Statements of Revenues, Expenses and Changes in Net Position. Scholarship allowances are the difference between the stated charge for goods and services provided by the institutions, and the amount that is paid by students and/or third parties making payments on the students' behalf. Payments of financial aid made directly to students are classified as scholarships and fellowships expenses.

GRANTS-IN-AID

Student tuition and fees revenue include grants-in-aid charged to scholarships and fellowships and grants-in-aid for faculty and staff benefits charged to the appropriate expenditure programs to which the applicable personnel relate. Grants-in-aid for fiscal years 2013 and 2012 were \$8,989 and 8,448, respectively.

TAX EXEMPTION

The System is an affiliate of a government unit in accordance with the Internal Revenue Service's Revenue Procedure 95-48 and is exempt from federal taxes. The discretely presented System Related Organizations are qualified tax-exempt organizations under the provisions of Section 501(c) (3) of the Internal Revenue Code and are exempt from federal and state income taxes on related income.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

COMPARATIVE INFORMATION

Certain reclassifications have been made to the 2012 financial information in order to conform to 2013 presentation. The reclassifications are neither significant nor material to the 2012 financial information.

NEW ACCOUNTING PRONOUNCEMENTS

In November 2010, the GASB issued Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements* (GASB 60), which improves financial reporting by addressing issues related to service concession arrangements, which are a type of public-private or public-public partnership. GASB 60 is effective for fiscal years beginning after December 15, 2011. The System has implemented this pronouncement with no significant impact to the financial statements for the years ended June 30, 2013 and 2012.

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 2 – Summary of Significant Accounting Policies (continued):

In November 2010, the GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34* (GASB 61), which improves reporting for a governmental financial reporting entity. This statement supplements GASB Statement No. 14, *The Financial Reporting Entity*, as well as GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*. GASB 61 is effective for fiscal years beginning after June 15, 2012. The System has implemented this pronouncement with no significant impact to the financial statements for the years ended June 30, 2013 and 2012.

In December 2010, the GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* (GASB 62), which incorporates into GASB's authoritative literature certain accounting and financial reporting guidance included in the pronouncements of the FASB and American Institute of Certified Public Accountants (AICPA). This statement also supersedes GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, eliminating the election to apply post-November 30, 1989 FASB pronouncements that do not conflict with or contradict GASB pronouncements. GASB 62 is effective retroactively for all periods presented for periods beginning after December 15, 2011. The System has implemented this pronouncement with no significant impact to the financial statements for the years ended June 30, 2013 and 2012.

In June 2011, the GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* (GASB 63), which provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. This statement amends the net asset reporting requirement in GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. GASB 63 is effective for financial statements for periods beginning after December 15, 2011. The System has implemented this pronouncement, and changes are reflected in the financial statements for the years ended June 30, 2013 and 2012.

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65), which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. GASB 65 is effective for financial statements for periods beginning after December 15, 2012. The anticipated impact of this pronouncement is uncertain at this time.

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68), which improves accounting and financial reporting by state and local governments for pensions. This statement also supersedes GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as GASB Statement No. 50, *Pension Disclosures*. GASB 68 is effective for fiscal years beginning after December 15, 2014. The anticipated impact of this pronouncement is uncertain at this time.

NOTE 3 – System Cash and Cash Equivalents:

Cash and cash equivalents of the System are stated at cost, which approximates market, and consists of deposits in money market funds, which are not federally insured, and cash in the bank. At June 30, 2013 and 2012, the System's deposits in money market funds totaled \$189,975 and \$186,277, respectively, and cash in bank was \$5,834 and \$18,409, respectively. Of these balances, \$250 each year, are covered by the Federal Depository Insurance Corporation ("FDIC"), the remaining deposits are uncollateralized and uninsured. Restricted cash represents the unexpended bond proceeds held for construction of major assets.

NOTE 4 – System Investments:

Board of Regents policies include the Statement of Investment Objectives and Policies for the Endowment and Operating funds of the System. This policy governs the investment management of both funds. The Board of Regents is responsible for establishing the investment policies; accordingly, the Board of Regents has promulgated these guidelines in which they have established permitted asset classes and ranges.

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 4 – System Investments (continued):

Investments are stated at fair value. The historical cost and market value (fair value) of System investments at June 30, 2013 and 2012 is as follows:

	<u>2013</u>		<u>2012</u>	
	<u>Cost</u>	<u>Market Value</u>	<u>Cost</u>	<u>Market Value</u>
Mutual funds publicly traded	\$474,390	\$546,138	\$457,036	\$487,181
Partnerships	69,042	96,310	55,481	96,187
Equities	3,766	4,052	4,448	5,454
Endowment cash and cash equivalents	1,353	1,353	1,718	1,718
Trusts	4,586	5,711	4,553	5,563
Private commingled funds	<u>92,428</u>	<u>97,428</u>	<u>85,875</u>	<u>96,951</u>
	<u>\$645,565</u>	<u>\$750,992</u>	<u>\$609,111</u>	<u>\$693,054</u>

As of June 30, 2013, the System had entered into various investment agreements with private equity partnerships and private commingled funds. Under the terms of certain of these investment agreements, the System is obligated to make additional investments in these partnerships of \$17,177. Generally, partnership investments do not have a ready market and ownership interests in some of these investment vehicles may not be traded without the approval of the general partner or fund management. These investments are subject to the risks generally associated with equities with additional risks due to leverage and the lack of a ready market for acquisition or disposition of ownership interests.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the combined statement of net position.

Credit risk and interest rate risk

Certain securities with fixed income are subject to credit risk which is the risk that an issuer of an investment will not fulfill its obligations. Other securities, including obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have credit risk. Credit quality is an assessment of the issuer's ability to pay interest on the investment, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent rating agencies, for example Moody's Investors Service or Standard and Poor's. For the types of investments that are subject to rating, the System's policy for reducing its exposure to credit risk is to maintain a weighted average credit rating of AA or better, and never below A, for investments with credit risk within both the endowment and operating investment pools. With regard to the trusts included in endowment investments, the System is not the trustee of these investments and, therefore, it currently has no policies with regard to credit risk for these investments.

The credit risk profile for the System's operating and endowment investments at June 30, 2013 is as follows:

	<u>Fair Value</u>	<u>Not Rated</u>
Mutual funds publicly traded	\$546,138	\$546,138
Partnerships	96,310	96,310
Equities	4,052	4,052
Endowment cash and cash equivalents	1,353	1,353
Trust(s)	5,711	5,711
Private commingled funds	<u>97,428</u>	<u>97,428</u>
	<u>\$750,992</u>	<u>\$750,992</u>

Interest rate risk is the risk that the value of fixed income securities will decline because of changing interest rates. The prices of fixed income securities with a shorter duration to maturity tend to be more sensitive to changes in interest rates, and, therefore, more volatile than those with longer investment lives. The System's policy for reducing its exposure to interest rate risk is to have an average investment life of at least two years for fixed income securities within both the endowment and operating investment pools. With regard to the trusts included in endowment investments, the System is not the trustee of these investments and, therefore, it currently has no policies with regard to interest rate risk for these investments.

Investments included in the above table have been identified as having interest rate risk and are principally invested in mutual funds and private commingled funds. The segmented time distribution for these investments at June 30, 2013 is as follows:

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 4 – System Investments (continued):

Less than 1 year	\$204,583
1 to 5 years	153,309
5 to 10 years	25,060
More than 10 years	<u> </u>
	<u>\$382,952</u>

Custodial credit risk

Custodial credit risk is the risk that in the event of a failure of the custodian, the System may not be able to recover the value of the investments held by the custodian as these investments are uninsured. This risk typically occurs in repurchase agreements where one transfers cash to a broker-dealer in exchange for securities, but the securities are held by a separate trustee in the name of the broker-dealer. The System does not have a specific policy with regard to custodial credit risk.

Concentration of credit risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the System's investments within any one issuer. For the fixed portion of the endowment pool, the System's policy for reducing its exposure to concentration of credit risk is to limit the investments within any one issuer to a maximum of 5% of the fixed income portfolio, provided that issues of the U.S. Government or agencies of the U.S. Government may be held without limitation and provided further that issues of agencies of the U.S. Government shall be limited to the extent set forth in the manager-specific guidelines. The System does not have a specific policy with regard to the operating pool or the remainder of the endowment pool. At June 30, 2013 there were no investments within any one issuer in an amount that would constitute a concentration of credit risk to the System.

Foreign currency risk

Foreign currency risk is the risk of investments losing value due to fluctuations in foreign exchange rates. The System does not directly invest in foreign currency investments and is therefore not subject to foreign currency risk. However, the System has \$155,699 and \$126,490 in mutual funds in both the operating and endowment pools that are primarily invested in international equities at June 30, 2013 and 2012, respectively.

NOTE 5 – System Endowment Pool:

\$219,950 and \$206,980 of endowment fund investments at June 30, 2013 and 2012, respectively, are pooled on a unit market value basis. As of June 30, 2013, the endowment pool was comprised of investments in mutual funds (48%), partnerships (40%), private commingled (10%) and stocks (2%). As of June 30, 2012, the endowment pool was comprised of investments in mutual funds (49%), partnerships (41%), private commingled (7%) and stocks (3%). Each individual endowment fund acquires or disposes of units on the basis of the market value per unit on the preceding quarterly valuation date. The unit market value at June 30, 2013 and 2012 was \$614.88 and \$553.13, respectively. The System follows the requirements of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) with respect to prudent investing and spending of donor-restricted endowments.

The System utilizes a spending rule for its pooled endowments, which determines the endowment income to be distributed currently for spending. For the year ended June 30, 2013 and 2012, the endowment spending policy, as approved by the Board of Regents, authorized a distribution of 4.5% of the average unit market value for the previous twenty (20) calendar quarters. Under the provisions of this spending rule, during 2013, \$22.11 was distributed to each time-weighted eligible unit for a total spending rule distribution of \$10,316, and during 2012, \$21.67 was distributed to each time-weighted eligible unit for a total spending rule distribution of \$10,293. The 2013 and 2012 distributions were made from investment income of \$5,251 and \$3,852, respectively, and \$5,065 and \$6,441, respectively from cumulative gains of pooled investments.

The System's policy is to retain the endowment's realized and unrealized appreciation with the endowment after the annual income distribution has been made. Such realized and unrealized appreciation retained in endowment investments was \$153,639 and \$128,443 at June 30, 2013 and 2012, respectively, is reflected within the restricted expendable for scholarships, research and instruction net position category and is available to meet future spending needs subject to the approval of the Board of Regents.

Effective July 1, 2009 the Board of Regents has suspended distribution on all underwater accounts. At June 30, 2013, 1 of 576 accounts was underwater.

NOTE 6 – System Accounts Receivable:

System accounts receivable consist primarily of amounts due from students for tuition and fees and from local and private sources for grant and contract agreements. System accounts receivable are presented on the accompanying Statements of Net Position net of allowances for uncollectible amounts of \$25,565 and \$19,282 as of June 30, 2013 and 2012, respectively.

NOTE 7 – System Loans Receivable:

Loans receivable from students bear interest primarily between 3% and 15% per annum and are generally repayable in installments to the various campuses over a five to ten year period commencing nine months from the date of separation from the institution. Student loans made through the Federal Perkins Loan Program comprise substantially all of the loans receivable at June 30, 2013. A provision for possible uncollectible amounts is recorded on the basis of the various institutions' estimated future losses for such items. The loans receivable and corresponding allowance for uncollectible loan balances as of June 30, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>

NOTE 9 – System Long-Term Debt:

The long-term debt of the System consists of revenue bonds payable, certificates of participation, capital lease obligations, notes payable and other minor obligations.

The Board of Regents issues revenue bonds to provide funds for the construction and renovation of major capital facilities. In addition, revenue bonds have been issued to refund other revenue bonds. In general, the long-term debt is issued to fund projects that would not be funded through State appropriations, such as dormitories, dining halls and parking garages.

NOTE 9 – System Long-Term Debt (continued):

The revenue bonds are collateralized by tuition and fees, auxiliary enterprises revenues and certain other revenues as defined in the bond indentures. The Certificates of Participation are secured by any and all available revenues as defined in the bond indentures. There are a number of limitations and restrictions contained in the various bond indentures. The most restrictive covenants of the various bond indentures require the various divisions and campuses of the System to maintain minimum levels of revenues, as defined in the indentures. The system is in compliance with all covenants.

Scheduled maturities of long-term debt for the years ending June 30 are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>

NOTE 10 – System Obligations Under Capital Leases (continued):

Future net minimum rental payments, which are required under the System leases for the years ending June 30, are as follows:

2014	\$ 912
2015	880
2016	747
2017	610
2018	<u>304</u>
Total minimum lease payments	3,453
Less amount representing interest	<u>(208)</u>
Obligations under capital leases	<u>\$3,245</u>

Total interest expense under the System capital leases and included in the accompanying combined financial statements was \$78 and \$78 during the years ended June 30, 2013 and 2012. Depreciation of the capital lease assets is included in depreciation expense of the Statements of Revenues, Expenses and Changes in Net Position.

NOTE 11– Operating Leases:

The System has entered into various noncancellable operating lease agreements covering certain buildings and equipment. The lease terms range from one to ten years. The expense for operating leases was \$5,628 and \$6,340 for years ended June 30, 2013 and 2012, respectively.

Future minimum lease payments on noncancellable operating leases for the years ending June 30, are as follows:

2014	\$ 4,924
2015	2,937
2016	2,536
2017	2,490
2018	<u>1,292</u>
Total future minimum obligation	<u>\$14,179</u>

NOTE 12– Unemployment Insurance and Workers Compensation:

The System is self-insured for unemployment insurance and workers compensation. These risks are subject to various claim and aggregate limits, with excess liability coverage provided by an independent insurer. Liabilities are recorded when it is probable a loss has occurred and the amount of the loss can be reasonably estimated. These losses include an estimate for claims that have been incurred, but not reported. The estimated liabilities are based upon an independent actuarial determination of the present value of the anticipated future payments.

Changes in unemployment and workers compensation for the years ended June 30, 2013 and 2012 are as follows:

	<u>2013</u>			
	Beginning <u>Balance</u>	<u>Additions</u>	<u>Reductions</u>	Ending <u>Balance</u>

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 16– System Pension Plans (continued):

The authority for establishing and amending the obligation to make contributions is provided by statute. Contribution rates are also established by statute. Active employees contribute to PERS at a rate of either 12.25% or 0% of annual covered wages depending on the contribution option selected. The System is required to contribute to PERS at a rate of either 12.25% or 23.75% of annual covered wages, depending on the option selected by the employee. The System is not liable for any unfunded liabilities of PERS.

PERS issues a comprehensive annual financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERS at 693 W. Nye Lane, Carson City, NV 89703-1599.

In addition to PERS, certain exempt employees have the option of participating in various retirement plans provided through the Teachers Insurance and Annuity Association and the College Retirement Equities Fund, the American Century Family of Funds, VALIC, and Fidelity Investments. Under these defined contribution plans, the System and participants make annual contributions to purchase individual, fixed or variable annuities equivalent to retirement benefits earned or to participate in a variety of mutual funds.

System employees may elect to participate in voluntary tax sheltered annuity and deferred compensation programs subject to maximum contribution limits established annually by the Internal Revenue Service. The employee contributions are not matched by the System.

The System's contribution to all retirement plans for the years ended June 30, 2013 and 2012 was approximately \$74,856 and \$72,618, respectively, equal to the required contribution for each year.

NOTE 17– System Postemployment Benefits Other than Pensions:

In June 2004, the GASB issued Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions*, which requires accrual-based measurement, recognition and disclosure of other postemployment benefits (OPEB) expense, such as retiree medical and dental costs, over the employees' years of service, along with the related liability, net of any plan assets.

Public employees who meet the eligibility requirements for retirement and at the time of retirement are participants in the program, have the option upon retirement to continue group insurance including medical, dental, vision, accidental death and dismemberment, travel accident, long-term disability, mental health, substance abuse and life insurance benefits. Nevada Administrative Code 287.530 established this benefit upon the retiree. Monthly contributions are deducted from pension checks. The cost varies depending on which health plan the retiree chooses, as well as the amount of the State subsidy they receive.

The Public Employees Benefits Program administers these benefits as a multiple employer cost sharing plan. The State Retirees' Health and Welfare Benefits Trust Fund has been created to provide benefits to retirees and their beneficiaries. The unfunded actuarial accrued liability for the trust, as of the most recent valuation on July 1, 2012, is \$1,181,000. This compares to \$947,000 on July 1, 2010. This is recorded on the financial statements of the trust and the State as a fiduciary fund, but not on the financial statements of the System.

Complete financial statements for the State Retirees' Health and Welfare Benefits Fund can be obtained from the Accounting Department at the Public Employees Benefit Program, 901 S. Stewart St., Carson City, NV 89701.

The System's contribution for the retired employee group insurance assessment for the years ended June 30, 2013 and 2012 was approximately \$12,945 and \$10,091, respectively, equal to the required contribution for the year.

NOTE 18 - System Commitments and Contingent Liabilities:

The System is a defendant or co-defendant in legal actions. Based on present knowledge and advice of legal counsel, System management believes any ultimate liability in these matters, in excess of insurance coverage, will not materially affect the net position, changes in net position or cash flows of the System.

The System has an actuarial study of its workers' compensation losses completed every other year. The study addresses the reserves necessary to pay open claims from prior years and projects the rates needed for the coming year. The System uses a third party administrator to adjust its workers' compensation claims.

The System is self-insured for its unemployment liability. The System is billed by the State each quarter based the actual unemployment benefits paid by the State. Each year the System budgets resources to pay for the projected expenditures. The amount of future benefits payments to claimants and the resulting liability to the System cannot be reasonably determined as of June 30, 2013.

The System receives Federal grants and awards, and amounts are subject to change based on outcomes of Federal audits. Management believes any changes made will not materially affect the net position, changes in net position or cash flows of the System.

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 18 - System Commitments and Contingent Liabilities (continued):

The estimated cost to complete property authorized or under construction at June 30, 2013 is \$33,456. These costs will be financed by State appropriations, private donations, available resources and/or long-term borrowings.

The Board of Regents approved at its June 7, 2013 meeting the reimbursement of certain expenditures from proceeds of up to \$40 million of NSHE Universities Revenue bonds. It is anticipated that such bonds, which are subject to final approval by the Board, will be issued in the third quarter of fiscal year 2014.

UNR sold the Fire Science Academy in Carlin, Nevada in fiscal year 2012. As part of the lease agreement executed at the time of the sale, upon termination of said lease, UNR is obligated to remove any and all above ground props from the prop field, and assess for and remediate any contamination in accordance with provisions promulgated in Nevada Revised Statutes and Administrative Code (NAC) 445A. The notice of lease termination was executed by the Chancellor on June 30, 2012. The estimated obligation includes all the anticipated costs to close out the Fire Science Program, including disposition of assets, demolition of the prop field and related fire water supply and treatment systems, assessing for environmental contamination, and remediation of such contamination, if found. The estimated obligation amount of \$4.1 million was developed by the Senior Director for Facilities Maintenance Services in coordination with outside consultants. An obligation amount of \$3.0 million has been included in accounts payable for the year ended June 30, 2013.

NOTE 19- Risk Management:

The System is an entity created by the Constitution of the State of Nevada. The System transfers its tort liabilities (other than Medical Malpractice) to the Tort Claims Fund of the State of Nevada (State). The State retains the first \$2,000 of loss and purchases excess liability in the amount of \$10,000 excess of a \$2,000 self-insured retention (SIR).

The System purchases the following commercial insurance:

Coverage for direct physical loss or damage to the System's property with limits of \$500,000 per occurrence and a \$500 SIR.

Worker's compensation (foreign and domestic) with statutory limits excess of a \$750 SIR.

Employee dishonesty with limits of \$1,250 and a deductible of \$50.

Medical malpractice with limits of \$1,000 per occurrence and \$3,000 aggregate.

Allied health malpractice with limits of \$1,000 per occurrence and \$3,000 aggregate.

The System purchases other commercial insurance for incidental exposures where prudent. The amount of claim settlements did not exceed the insurance coverage for any of the past three years.

The System is charged an assessment to cover its portion of the State's cost of the Tort Claims fund.

NOTE 20- Subsequent Events:

The Board of Regents approved at its September 6, 2013 meeting the reimbursement of certain expenditures from proceeds of up to \$85 million of State of Nevada general obligation bonds. It is anticipated that such bonds, which are subject to final approval by the Board and the State, will be issued in the fourth quarter of fiscal year 2014.

The Board of Regents approved at its September 6, 2013 meeting the form of a Lease-Purchase Agreement and related documents between the Nevada Real Property Corporation (the "Lessor") and the State of Nevada acting by and through NSHE (the "Lessee") whereby the Lessee would lease from the Lessor a not-to-exceed \$61 million project to be constructed on the principal campus of NSC. It is expected that State of Nevada Certificates of Participation, which are subject to additional approvals by the State and the Lessor, will be issued in November 2013.

The Foundation's investment policy for cash and cash equivalents is to exercise sufficient due diligence to minimize investing cash and cash equivalents in instruments that will lack liquidity. The Foundation, through its Investment Managers considers the operating funds to be two discrete pools of funds: a short-term pool and an intermediate-term pool. The short-term pool shall be funded in an amount sufficient to meet the expected daily cash requirements of the Foundation. The goals of the investments are to maintain the principal in the account while maximizing the return on the investments. The short-term pool is staggered in 30, 60, and 90 day investments. Appropriate types of investments are money market funds, certificates of deposit, commercial paper, U.S. Treasury bills and notes, mortgage backed securities (U.S. Government) and internal loans to the University of Nevada, Reno secured by a promissory note with an appropriate interest rate. The intermediate-term pool is invested in fixed income securities generally having an average maturity of three years or less in order to take advantage of higher yields.

The cumulative net appreciation (depreciation) of investments at June 30, 2013 and 2012 was \$8,403 and \$(879), respectively.

Investment Risk Factors

There are many factors that can affect the value of investments. Some factors, such as credit risk and concentrations of credit risk may affect fixed income securities, which are particularly sensitive to credit risks and changes in interest rates. The Investment Committee of the Foundation has policies regarding acceptable levels of risk. The committee meets quarterly to review the investments. Significant amounts of the investments are held with Commonfund which also has policies regarding acceptable levels of risk.

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 22 - System Related Organizations (continued):

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an organization's investment in a single issuer. The Foundation restricts investment of cash and cash equivalents and investments to financial institutions with high credit standing, and the Foundation currently purchases certificates of deposit of less than \$250 per bank or institution. Commercial paper is limited to a maximum of 10% of the total cash available. The Foundation has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents and investments.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. None of the investments held by the Foundation are rated by a nationally recognized statistical rating organization.

Fixed income securities to obligations of the U.S. Government are not considered to have credit risk.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Foundation's investment policy limits the maturities of U.S. Treasury instruments and certificates of deposit to no more than 90 days unless the rate justifies the return and the current liquidity requirements are met.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. Foreign investments are managed by the Investment Manager, and the Foundation has policies in place to address foreign currency risk.

Custodial Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the Foundation's deposits exceed FDIC limits and as a result may not be returned to the Foundation. All cash deposits are primarily on deposit with two financial institutions and several investment companies. The Foundation does not have a deposit policy for custodial credit risk. As of June 30, 2013, the Foundation's bank balances totaled \$13,811. Of this balance, \$825 was covered by depository insurance and/or collateralized and \$11,462 is held by State Street Government Securities and subject to their investment policies. The remaining \$1,523 was uninsured and uncollateralized and, as a result, was subject to custodial credit risk at June 30, 2013.

Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the Foundation will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments consist primarily of commingled funds. Debt and equity securities other than open-end mutual funds are uncollateralized.

Commitments

As of June 30, 2013, the Foundation has committed to acquire approximately \$8.5 million in new commingled funds.

NEVADA SYSTEM OF HIGHER EDUCATION

NOTES TO THE FINANCIAL STATEMENTS (in \$1,000's) FOR THE YEARS ENDED JUNE 30, 2013 and 2012

NOTE 22 - System Related Organizations (continued):

UNLV Foundation:

The UNLV Foundation discloses its deposits with financial institutions, investments, and reverse repurchase agreements in accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures-an amendment of GASB Statement No. 3*.

During the year ended June 30, 2013, the UNLV Foundation recognized \$16,638, in investment gains. Earnings included \$2,432 from interest and dividends, \$3,079 from net realized gains on the sale of investments, and \$11,792 from the change in investment fair value. The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments that had been held more than one fiscal year and sold in the current year were included as a change in the fair value of investments reported in prior years. Investment expenses of \$664 and amortization of bond discounts of \$0 were netted against earnings.

Investments include the following at June 30, 2013 and 2012:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$ 13,366	\$ 12,985
Certificates of deposit	1,845	1,316
Equities	19,779	16,506
U.S. government obligations	16,920	19,181
U.S. corporate bonds	25,433	28,920
Collateralized securities	20,233	18,546
Alternative investments	85,879	74,392
Non-U.S. corporate bonds	<u>7,299</u>	<u>3,304</u>
Total marketable securities at fair value	<u>\$190,754</u>	<u>\$175,150</u>

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the UNLV Foundation will not be able to recover deposits or collateral securities that are in the possession of an outside party. At June 30, 2013, the total balance for the UNLV Foundations cash and money market funds was \$13,222. Of this balance, \$475 was covered by the Federal Deposit Insurance Corporation, and \$12,747 was uninsured.

Credit Risk

Credit risk is the risk that an issuer will not fulfill its obligations. The UNLV Foundation reduces its exposure to credit risk with policy guidelines that instruct money managers to purchase securities rated investment grade or better. However, up to 25% of the fixed-income portfolios may be allocated to below investment grade. The credit ratings of fixed income investments at June 30, 2013 follow:

	<u>Total</u>	<u>AAA</u>	<u>AA</u>	<u>A</u>	<u>BBB</u>	<u>Below Investment Grade</u>
Collateralized securities	\$ 20,233	\$ 18,009	\$ 1,643	\$ 357	\$ 224	\$ -
U.S. corporate bonds	25,433	180	451	4,848	19,863	91
Non-U.S. corporate bonds	7,299	-	1,097	2,610	3,592	-

Fixed income securities or obligations of the U.S. government are not considered to have credit risk.

In accordance with GASB Statement No. 40, U.S. government obligations, mortgage-backed securities, cash, and money market funds backed by the full faith and credit of the federal government are not included in the above table. Alternative investments are not rated by industry rating agencies.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The UNLV Foundation's policy guidelines on maturity parameters state that the fixed-income portfolio's average weighted duration is to remain within 20% of the benchmark duration.

Nevada System of Higher Education

Single Audit Report

For the Year Ended June 30, 2013

Notes to the Supplementary Schedule of Expenditures of Federal Awards

Note 1:

The purpose of the Supplementary Schedule of Expenditures of Federal Awards is to present a summary of the activities of the Nevada System of Higher Education for the year ended June 30, 2013, which have been financed by the United States Government.

For the purpose of this Schedule, Federal awards have been classified into two types:

- Direct Federal awards
- Pass-through funds received from non-Federal organizations made under Federally sponsored programs coordinated by those organizations

Because the Schedule presents only a selected portion of the activities of the Nevada System of Higher Education, it is not intended to and does not present either the net assets, revenues, expenses, changes in net assets, or changes in cash flows of the Nevada System of Higher Education.

The Nevada System of Higher Education consists of:

University of Nevada, Reno	University of Nevada, Las Vegas
Desert Research Institute	Nevada State College
College of Southern Nevada	Great Basin College
Truckee Meadows Community College	Western Nevada College
Nevada System of Higher Education System Administration	

The Schedule is prepared on the accrual basis of accounting.

The Schedule does not include inter-system pass-through funds. In addition, the Schedule does not include the activity of Integrated Clinic Services, Inc. ("ICS"), a discretely presented component unit of the System as ICS has a separate Single Audit under OMB Circular A-133.

Note 2:

The following schedule represents loans advanced by the System for the year ended June 30, 2013:

Federal Perkins Loan Advances (CFDA Number 84.038):	\$1,431,859
Nursing Student Loan Advances (CFDA Number 93.364):	\$279,085
Health Professions Student Loan Advances (CFDA Number 93.342):	\$0

Nevada System of Higher Education

Single Audit Report

For the Year Ended June 30, 2013

The Federal Perkins, Nursing Student Loan Programs (“NSL”) and Health Professions Student Loan Programs (“HPSL”) are administered directly by the System and balances and transactions relating to these programs are included in the System’s financial statements. The balances of loans outstanding under the Perkins, NSL and HPSL programs were \$8,003,429, \$1,090,959, and \$341,349 respectively as of June 30, 2013.

Note 3:

For the fiscal year ended June 30, 2013, the System processed approximately \$248,019,547 in new loans under the Direct Lending Program (CFDA 84.268). Loan amounts include subsidized and unsubsidized loans and Parent Loans for Undergraduate Students (PLUS).

Note 4:

The total value of the Federal awards in the form of non-cash assistance during the fiscal year ended June 30, 2013 was zero.

5. SUBRECIPIENTS

Report of Independent Certified Public Accountants on Internal Control over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Board of Regents
Nevada System of Higher Education

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component units of the Nevada System of Higher Education (the “System”) as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the System’s basic financial statements, and have issued our report thereon dated November 4, 2013.

Our report includes a reference to other auditors who audited the financial statements of DRI Research Foundation, DRI Research Parks, Ltd., Truckee Meadows Community College Foundation, Great Basin College Foundation, UNLV Research Foundation, UNLV Rebel Football Foundation, College of Southern Nevada Foundation, and the Nevada State College Foundation, as described in our report on the System’s financial statements. This report does not include the results of the other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the Truckee Meadows Community College Foundation, Great Basin College Foundation, UNLV Research Foundation, UNLV Rebel Football Foundation, College of Southern Nevada Foundation, and the Nevada State College Foundation were not audited in accordance with *Government Auditing Standards*.

Internal control over financial reporting

In planning and performing our audit of the financial statements, we considered the System’s internal control over financial reporting (“internal control”) to design audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of the System’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the System’s financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in the System's internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and other matters

As part of obtaining reasonable assurance about whether the System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Intended purpose

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the System's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the System's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

**Report of Independent Certified Public Accountants on
Compliance for Each Major Federal Program and on Internal
Control over Compliance Required By OMB Circular A-133**

Board of Regents
Nevada System of Higher Education

Report on compliance for each major federal program

We have audited the compliance of Nevada System of Higher Education (the “System”) with the types of compliance requirements described in the U.S. Office of Management and Budget’s OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013. The System’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Our audit of, and opinion on, the System’s compliance for each major program does not include the operations of Integrated Clinical Services, Inc., a discretely presented component unit, which received federal awards for the year ended June 30, 2013 that are not included in the schedule of findings and questioned costs. Integrated Clinical Services, Inc. engaged for a separate audit of compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement.

Our audit of, and opinion on, the System’s compliance for the Student Financial Aid cluster does not include the compliance requirements governing Federal Perkins Loan Program repayments because the System engaged ECSI to perform these compliance activities or compliance requirements governing reporting requirements over Student Status Confirmation Reports (SSCR), because the System engaged National Student Clearinghouse to perform these compliance activities. These third-party servicers have obtained a compliance examination from another practitioner for June 30, 2013 in accordance with the U.S. Department of Education’s Audit Guide, Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers.

Management’s responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to the System’s federal programs.

Auditor’s responsibility

Our responsibility is to express an opinion on compliance for each of the System’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

The above-mentioned standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the System's compliance.

Basis for qualified opinion on the Student Financial Aid Cluster

As described in the accompanying schedule of findings and questioned costs, the System did not comply with the requirements regarding Special Tests and Provisions – Verification (item 2013-009), Special Tests and Provisions – Enrollment Reporting (items 2013-013 and 2013-014), and Reporting – Common Origination and Disbursement System (item 2013-017). Compliance with such requirements is necessary, in our opinion, for the System to comply with the requirements applicable to that program.

Qualified opinion on the Student Financial Aid Cluster

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the System complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Student Financial Aid Cluster for the year ended June 30, 2013.

Unmodified opinion on the Research and Development Cluster

In our opinion, the System complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Research and Development Cluster identified in the summary of independent accountants' results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2013.

Instances of noncompliance

The results of our audit procedures disclosed other instances of noncompliance, described in the accompanying schedule of findings and questioned costs as items 2013-004, 2013-008, and 2013-010, that are required to be reported in accordance with OMB Circular A-133. Our opinion on each major federal program is not modified with respect to these matters.

Entity's response to findings

The System's response to our noncompliance findings, which is described in the accompanying schedule of findings and questioned costs, was not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the System's response.

Report on internal control over compliance

Management of the System is responsible for designing, implementing, and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the System's internal control over compliance with the types of compliance requirements that could have a direct and material effect on each major federal program to design audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the System's internal control over compliance.

As described in our Report on Compliance for Each Major Federal Program above, this Report on Internal Control Over Compliance does not include the results of the other auditors' testing of internal control over compliance that is reported on separately by those auditors or that of Integrated Clinical Services, Inc.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. However, we identified certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2013-009, 2013-013, 2013-014 and 2013-017, that we consider to be material weaknesses in the Entity's internal control over compliance.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We identified certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2013-001 through 2013-008, 2013-010 through 2013-012, 2013-015, 2013-016 and 2013-018, which we consider to be significant deficiencies in the System's internal control over compliance.

The System's response to our findings on internal control over compliance, which is described in the accompanying schedule of findings and questioned costs, was not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the System's response.

The purpose of this Report on Internal Control over Compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

SECTION II — FINANCIAL STATEMENT FINDINGS AND QUESTIONED COSTS

None reported.

SECTION III — FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

RESEARCH AND DEVELOPMENT CLUSTER FINDINGS

FINDING 2013-001 – Reporting (Repeat finding 2012-01)

Federal Programs

Research and Development Cluster

University of Nevada, Reno: CFDA 81.049 (Award DE-SC0008834).

Desert Research Institute: CFDA 12.000 (Award W912HZ-12-C-0048).

Award year ended June 30, 2013

Criteria

Federal Acquisition Regulation clause 52.204-10(c)(1) outlines prime recipient reporting requirements for the Federal Funding Accountability and Transparency Act (FFATA). The requirement reads, “unless otherwise directed, by the end of the month following the month of award of a first-tier subcontract with a value of \$25,000 or more, the Contractor shall report” relevant contract information.

Condition

We noted that both the Desert Research Institute (DRI) and University of Nevada, Reno (UNR) did not report sub-recipient contracts timely.

Context

Testing at the DRI identified that one out of one FFATA report examined was filed late.

Testing at the UNR identified that one out of six FFATA reports examined was filed late.

Questioned Costs

\$0

Effect

Failure to submit required reports timely fails to honor the intent of the federal agency to provide transparency for the sub-awards on usa.spending.gov, the website where reported information is available for public viewing.

Cause

The internal control environment did not prevent the untimely filing.

Recommendation

We recommend that the Institutions design and implement processes and controls to ensure FFATA reporting are communicated timely to those individuals responsible for reporting them under the FFATA requirements. Furthermore, when technological problems prevent timely reporting, we recommend these individuals document their attempts to report as well as their communications with sponsoring agencies.

FINDING 2013-001 – Reporting (Repeat finding 2012-01) - Continued

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

DRI Response

Unfortunately, the sudden death of the responsible manager near the time when the report should have been filed prevents us from knowing whether there was a timely attempt and what precluded a timely submission. In the subsequent restructuring of this function we have put controls into place to ensure FFATA reports are filed on time.

UNR Response

UNR agrees with this recommendation. We understand the importance of timely reporting and have added an additional control that will allow us to check to make sure that all reports are being filed timely. We anticipate all future reports will be timely, but if situations arise in the future that impact timely submission full documentation will be retained.

Federal Programs

Research and Development Cluster

University of Nevada, Reno: *Financial Reports: CFDA 81.087 (Award NV-EE0002850)*

Award year ended June 30, 2013

Criteria

Pursuant to 2 CFR 215.52(1)(iv), quarterly and semi-annual reports shall be submitted no later than 30 days after the end of the each reporting period.

Condition

We noted that the UNR did not submit a required SF-425 financial report.

Context

Testing at the UNR identified one out of ninety-two financial reports tested was not filed.

Questioned Costs

\$0

Effect

Failure to submit required reports fails to honor the intent of the federal agency to have accurate records of expenditures under Federal awards as well as progress of projects utilizing Federal funding.

Cause

The responsible parties did not submit the report due to the lack of a process to monitor required filings.

Recommendation

We recommend that the Institution design and implement processes and controls to ensure timely reporting to the Federal agency.

FINDING 2013-003 – Reporting

Federal Programs

Research and Development Cluster

University of Nevada, Las Vegas: *Financial Report*: CFDA 81.122 (Award DE-FC26-08NT02873).

Award year ended June 30, 2013

Criteria

Pursuant to 2 CFR 215.21(b)(1), requires accurate, current and complete disclosure of the financial results of each federal-sponsored project or program.

Condition

We noted that the University of Nevada, Las Vegas (UNLV) submitted a financial report that included an incorrect entry related to the indirect cost base.

Context

Testing at the UNLV identified that one out of ninety-one financial reports examined included financial information that did not agree to the accounting records.

Questioned Costs

\$0

Effect

Failure to submit required reports accurately fails to honor the intent of the federal agency to have accurate records of expenditures under Federal awards as well as progress of projects utilizing Federal funding.

Cause

The responsible parties did not submit the reports accurately due to oversight by the preparer which was not identified by the reviewer before sending the report to the sponsor.

Recommendation

We recommend that the Institution design and implement a process and controls to review filings to ensure accurate reporting to the Federal agency.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this finding. We understand the importance of accurate reporting, and while the data entry error did not impact the financial payment, we have incorporated processes to assure all data fields are reviewed prior to signature and report submission. We anticipate this oversight will not occur again.

FINDING 2013-004 - Equipment and Real Property Management

Federal Programs

Research and Development Cluster

University of Nevada, Las Vegas: CFDA #81.087 (Award #RF-06-FCAST-001)

Award year ended June 30, 2013

Criteria

OMB Circular A-110, Subpart C, .34(g) states, when the recipient no longer needs the equipment, the equipment may be used for other activities in accordance with the following standards. For equipment with a current per unit fair market value of \$5,000 or more, the recipient may retain the equipment for other uses provided that compensation is made to the original Federal awarding agency or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the equipment. If the recipient has no need for the equipment, the recipient shall request disposition instructions from the Federal awarding agency. The Federal awarding agency shall determine whether the equipment can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the equipment shall be reported to the General Services Administration by the Federal awarding agency to determine whether a requirement for the equipment exists in other Federal agencies. The Federal awarding agency shall issue instructions to the recipient no later than 120 calendar days after the recipient's request and the following procedures shall govern.

Condition

We noted that the UNLV did not consistently fulfill these requirements.

Context

Testing at UNLV identified one equipment disposal out of nine tested that had a fair value of more than \$5,000 at the time of the disposal but we were not able to verify that there was communication with the awarding agency regarding its appropriate federal share.

Questioned Costs

\$15,979

Effect

The compliance requirement to request disposition instructions and/or compensate the original Federal awarding agency for equipment with a current fair market value of \$5,000 or more at the time of disposal was not achieved one item.

Cause

The responsible parties do not retain documentation of communication with the awarding agency regarding disposal of the questioned asset.

Recommendation

We recommend the Institution train those responsible for compliance with above mentioned requirements to eliminate instances of noncompliance.

Nevada System of Higher Education

SCHEDULE OF FINDINGS AND QUESTIONED COSTS- CONTINUED

Year ended June 30, 2013

FINDING 2013-004 - Equipment and Real Property Management - Continued

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this finding. We have implemented a process to review all equipment disposition requests that involve equipment purchased from federal funds with a current fair market value of greater than \$5,000, but there was a single occurrence where there was a misunderstanding by one individual regarding what constituted the sponsor granting "title" to the university. We are implementing mandatory training to address the entire equipment process as well as the federal regulations associated with equipment. New employees will also be trained in this area as they are hired to avoid a reoccurrence.

STUDENT FINANCIAL AID CLUSTER FINDINGS

FINDING 2013-005 - Special Tests and Provisions: Disbursements To or On Behalf of Students

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Aid Cluster - CFDA 84.268
Award year ended June 30, 2013

Criteria

Pursuant to 34 CFR 668.19(b)(1) If a student transfers from one institution to another institution during the same award year, the institution to which the student transfers must request from the Secretary, through National Student Loan Data System (NSLDS), updated information about that student so it can make the determinations required under paragraph (a) of this section; and (2) The institution may not make a disbursement to that student for seven days following its request, unless it receives the information from NSLDS in response to its request or obtains that information directly by accessing NSLDS, and the information it receives allows it to make that disbursement..

Condition

UNLV was unable to provide documentation supporting the Institution's requests for updated student information from NSLDS for students that transferred to UNLV for the spring semester or that the disbursements were made at least seven days after the request.

CSN did not perform the necessary requests for updated student information from NSLDS prior to disbursing funds for students that transferred to CSN during the year that received the PELL grant.

Context

For six of six students selected for testing at UNLV, the required request for updated student information from NSLDS for transfer students could not be supported and therefore we could not determine that the request occurred.

For nine of nine students selected for testing at CSN, the required request for updated student information from NSLDS for transfer students receiving PELL grants was not completed.

FINDING 2013-005 - Special Tests and Provisions: Disbursements To or On Behalf of Students

– Continued

Effect

The Institutions do not comply with the specific requirements of Federal Regulations with respect to requesting student information from NSDLS as required.

Cause

At UNLV, the PeopleSoft system was not set-up to maintain documentation of when the requests were made. Also, the NSLDS website only includes a listing of students currently waiting for requested information; it does not include past information.

At CSN, policies and procedures did not include the necessary policy to review PELL grant activity on the NSLDS website.

Recommendation

We recommend the Institutions implement processes to ensure documentation is maintained of the Institutions' compliance with the above requirements.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this finding. UNLV used the PeopleSoft delivered process to make requests through NSLDS as required on a weekly basis. However, as noted in the finding, the job, as delivered by Oracle in PeopleSoft, did not maintain the history of transactional data. The alert flag report from NSLDS was reviewed in a timely manner based upon our weekly job to prevent federal aid from disbursing prematurely; however, demonstrating with appropriate documentation this actually occurred within the system was problematic for the 2012-2013 school year based upon Oracle programming.

A warning flag has now been created in the system. The warning flag has a date and time stamp associated when the job runs. The transactional data history of this process is now maintained to ensure documentation of the process is available to satisfy this requirement going forward.

CSN Response

CSN concurs with this recommendation. CSN has an internal policy in place that occurs prior to a student receiving a Pell Grant Award. The manual procedure includes a step whereby the Financial Aid staff views the National Student Loan Database (NSLDS) student information for each student recipient, including those who have transferred from another institution. This procedure was designed to eliminate the possibility of over-award by ensuring that a student's Lifetime Eligibility Limit (LEU) has not yet been reached.

Although a part of CSN's established manual process, CSN was unable to provide the records to verify that this step had been completed. CSN will develop, and/or update as appropriate, policies, procedures and guidelines to add a specific reference to the current procedure directing the Financial Aid staff to review the NSLDS Database for students transferring to CSN from another institution. In addition, a verification mechanism will be incorporated into these procedures.

CSN has undertaken several corrective actions to address the deficiencies noted in the 2012-13 A-133 audit process. These actions include utilizing an external consultant to perform a comprehensive external and

independent review of operations and associated functionality within the Financial Aid Department to ensure effectiveness and efficiency.

The external assessment and operational review encompasses all aspects of activities required of higher education financial aid offices and departments. The scope of review includes:

- Conducting a review of the people, processes and technology within the financial aid operations to assess departmental program management, administrative capability, and overall effectiveness for administering Title IV federal student aid programs;
- Provide deliverables that support the review and assessment, including recommendations for enhancing processing efficiency and effectiveness within the financial aid operations at CSN.

Once completed, the assessment process will provide recommendations that guide the strategic development of CSN financial aid operations including quality control and assurance processes. The assessment is anticipated to be completed by mid-November 2013, and the consultant's final report will be forthcoming within the following 60 days. The outcomes of the assessment process are envisioned to address operational deficiencies that have resulted in repeated findings identified through the external/independent audit. The consultant's final report recommendations will be reviewed and implemented by the College as appropriate.

FINDING 2013-006 - Internal Control over Compliance

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Assistance Cluster
Award year ended June 30, 2013

Criteria

Office of Management and Budget (OMB) Circular A-110 (2 CFR part 215) requires that non-Federal entities receiving Federal awards (i.e. auditee management) establish and maintain internal control designed to reasonably ensure compliance with Federal Laws, regulations, and program compliance requirements.

Condition

At UNR, we noted deficiencies in security administration controls related to the automated/activity-level controls in the PeopleSoft application. Specifically, controls were lacking around restriction of access and segregation of duties as it relates to the PeopleSoft application over the student financial aid assistance program.

Context

During our testing of the automated/activity-level controls in the PeopleSoft application, we noted the individual who authorizes access to the Student Financial Aid Disbursement Calendar makes changes to the disbursement calendar settings. Ideally these duties should be segregated to mitigate the risk of errors or inappropriate actions. Management described to us that monitoring does take place to ensure changes made to the system are appropriate but we saw that any monitoring is not documented and could not be verified.

FINDING 2013-006 - Internal Control over Compliance – Continued

Context – Continued

In addition we noted that the individual who authorizes access to the student aid award data also makes changes to the query settings. Ideally these duties should be segregated to mitigate the risk of errors or inappropriate actions. The mitigating control that reduces the risk of inappropriate changes to the query is the audit tracker that is imbedded within PeopleSoft. The monitoring over this process is informal and not properly documented.

The deficiencies in security administration controls could impact compliance requirements related to disbursement processing.

Questioned Costs

\$0

Effect

Student data within the PeopleSoft application may be affected by users having conflicting roles or access levels, and accountability may not be established. Student data may be affected by unauthorized, inappropriate, or untested changes to the system which could result in non-compliance with student, disbursement processing.

Cause

The issues identified are part of the lack of proper controls at the activity level in the PeopleSoft Application.

Recommendation

Management should logically segregate duties, and management should consider documenting the performance of monitoring controls.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

The Financial Aid Office has defined a process for approval of change and documentation of this approval and a record of the actual changes made in the system. The director approves the change and keeps a record of the individual who makes the changes in the system.

Condition

The College of Southern Nevada (CSN) and Truckee Meadows Community College (TMCC) did not provide the required notification to students after every Direct Loan disbursement.

Context

For seventeen out of twenty-five students selected for testing at the CSN, the required notification noted above was not sent to the student after disbursements made subsequent to the initial fall disbursement. For three out of one hundred fifty-one students selected for testing at the TMCC the required notification noted above was not sent to the student for a second disbursement made in one payment the same semester.

Questioned Costs

\$0

Effect

The Institutions did not comply with the specific requirements of Federal Regulation with respect to sending notifications to students for the Direct Loans.

Cause

The PeopleSoft system's query utilized to send loan disbursement notification letters excluded students with disbursements in certain instances and this was not identified by the respective Institution's system of internal controls.

Recommendation

We recommend the Institutions enhance controls to ensure the required notifications are sent to students receiving Direct Loans. Management should evaluate the existence of this issue of non-compliance in the remaining population and remediate as necessary.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

College of Southern Nevada concurs with the recommendation. CSN was identified in repeat findings for Award Years 2010-11, 2011-12, and 2012-13. In Award Year 2010-11, the daily notification transmission was a manual one and an error occurred when one daily e-mail notification transmission was duplicated the day after the original mailing, and the student notification that should have been sent on the second day was not sent at all. It was thought that with the implementation of PeopleSoft that a number of the problems experienced with manual processes such as the disbursement notification would be resolved. In the new system, once the loans are awarded, the MyCSN system automatically generates an email notification to the student which eliminated the previous error or a missed or duplicate notification.

In Award Year 2011-12, the external audit identified that during the implementation of PeopleSoft, the system was not set up properly to send notifications with the required information. The College worked with consulting firm Cedar Crestone to solve the technical problem associated with the 30-day loan notifications and it was verified that the system was working correctly.

The most recent audit for Award Year 2012-13 identified a sample of students who received disbursements in fall and subsequent semesters. While the initial notification was made, the subsequent and modified notifications were not properly noted within the setup program.

With the notification of the finding, CSN reviewed the program that selects the students who are to receive a disbursement notification. A programming error was found that caused the students who received a fall disbursement notification to be excluded from future notifications when they received subsequent disbursements. CSN's internal staff are reviewing queries and conducting testing to ensure that notifications to students receiving subsequent disbursements are generated as required.

Once the testing is complete, CSN will implement the updates to production and will generate all required communication letters for spring and summer 2013 semesters respectively, and will verify that the current year communications are generating correctly. The completion date for the testing is October 18, 2013; students will be sent their updates no later than October 25, 2013.

CSN has also undertaken several corrective actions to address the deficiencies noted in the 2012-13 A-133 audit process. These actions include utilizing an external consultant to perform a comprehensive external and independent review of operations and associated functionality within the Financial Aid Department to ensure effectiveness and efficiency.

The external assessment and operational review encompasses all aspects of activities required of higher education financial aid offices and departments. The scope of review includes:

- Conducting a review of the people, processes and technology within the financial aid operations to assess departmental program management, administrative capability, and overall effectiveness for administering Title IV federal student aid programs;
- Provide deliverables that support the review and assessment, including recommendations for enhancing processing efficiency and effectiveness within the financial aid operations at CSN.

Once completed, the assessment process will provide recommendations that guide the strategic development of CSN financial aid operations including quality control and assurance processes. The assessment is anticipated to be completed by mid-November 2013, and the consultant's final report will be forthcoming within the following 60 days. The outcomes of the assessment process are envisioned to address operational deficiencies that have resulted in repeated findings identified through the external/independent audit. The consultant's final report recommendations will be reviewed and implemented by the College as appropriate.

TMCC Response

TMCC agrees with this finding and recommendation. We corrected this immediately by changing the selection criteria of the underlying query. Students were receiving notices but in the case when two disbursements happened on the same day only one amount was listed in the notification.

Condition

During our testing of student files at CSN and UNLV, we identified instances where the students' cost of attendance used in the calculation of eligible student financial aid was incorrect.

Context

For four out of one hundred seventy-eight students selected for testing at CSN and for six out of one hundred eighty-two students selected for testing at UNLV, the cost of attendance budgeted to the students were incorrect.

Effect

The instances noted at CSN, did not result in an over award of federal funds; however, the operating effectiveness of the controls over the process and the incorrect application of the cost of attendance could result in a student receiving federal funds greater than their need.

Certain instances noted at UNLV resulted in an over award of federal funds.

Cause

At UNLV, the PeopleSoft system was set up to pull incorrect costs from budget tables for special graduate student programs and less than half time undergraduate students. In another instance the cost of attendance was not updated by the system when the student's ISIR was received after an initial budget was set up for the

student. In the last instance, the student's summer cost of attendance was updated to a generic budget intended to be used when a student is receiving state funds only.

At CSN, cost of attendance for students receiving direct loans was set up manually by an employee. As such, instances noted were due to oversight by personnel processing the information.

Recommendation

We recommend the Institutions ensure system edit checks are operating effectively and producing accurate information to avoid an over award of funds. To the extent the process is manual, one employee's work should be carefully reviewed by another. CSN Response

College of Southern Nevada concurs with this recommendation. In Award Year 2010-11, the error that caused the finding was due to an incorrect manual entry to update a student's cost of attendance. With the implementation of the PeopleSoft system, it was thought that design and programming would minimize the possibility of errors and data entry mistakes.

In Award Year 2011-12, the errors were technical ones and queries were developed to be run on a monthly basis to capture student changes (such as change from out-of-state to in-state status; living status, etc.) In addition, a process step was implemented whereby students who applied for a Direct Stafford Loan or College Work Study automatically had their Cost of Attendance reviewed (as a manual process undertaken by Financial Aid staff) to ensure that an over-award situation would not occur.

In Award Year 2012-13, CSN Financial Aid set up the Cost of Attendance to be developed through the automated budgeting process, based upon full-time enrollment. As loan applications were received, staff assigned to certify and originate student loans manually adjusted budgets for applicants who were enrolled less than full-time to reflect their actual enrollment status. It was during the manual adjustment phase that the errors occurred. Although an over-award did not occur, the potential for such an occurrence existed. The department did not have a quality control measure in place that would sample budgets after loan certification and origination. This procedure could have identified this type of error and provided for an opportunity to resolve it.

In Award Year 2013-14, CSN plans to integrate within PeopleSoft, programming to produce budgets based on actual enrollment levels per term. In addition, a weekly query is being developed that will pull the budgeted population for a separate review to ensure that it is correct. If any discrepancies are discovered, they can be researched and resolved immediately.

CSN has also undertaken several corrective actions to address the deficiencies noted in the 2012-13 A-133 audit process. These actions include utilizing an external consultant to perform a comprehensive external and independent review of operations and associated functionality within the Financial Aid Department to ensure effectiveness and efficiency.

UNLV Response

UNLV agrees with this finding. The first issue identified (inaccurate budget information for special graduate student programs and less than half-time undergraduate students) was caused by manually calculated budgets for graduate programs that have non-standard costs of attendance. UNLV has three programs in this category – Emergency Crisis Management, Masters of Hospitality and Executive MBA. The cost of attendance was not programmed into the computer system since these programs have unique start and end dates in relation to the standard academic term. Therefore, the cost of attendance was manually being calculated.

Human error calculating the cost of attendance resulted in two students being over awarded \$1,345 from the Direct Lending program and was returned back to the U.S. Department of Education. This situation did not affect the Federal Pell grant program or Campus Based Aid programs (SEOG, Work Study or Perkins loan).

As a result of this finding, the UNLV Financial Aid Office reviewed all students in these three programs for 2012-2013 and confirmed no other cases of miscalculation occurred. The budgeting program has since been updated to create a cost of attendance automatically (instead of manually) to eliminate this as a future concern.

The second issue identified (initial cost of attendance budget not updated after ISIR received) occurred when students had changed their housing status on the FAFSA regarding on campus, off campus or with parent living arrangements. These adjustments were not originally identified by established queries to review subsequent ISIR transactions as there was no effect on the EFC.

As a result of this finding, a query was run on all 2012-2013 students processed (47,428 ISIR transactions received) to identify any students which may have received an over-award because of the change in their FAFSA housing status. The office found 11 students (including those found in the audit sample) out of 47,428 ISIR transactions received. A total of \$26,977 in over awarded Direct Loans and this was returned to

the U.S. Department of Education once the financial aid package was adjusted correctly. This situation did not affect the Federal Pell grant program or Campus Based Aid programs (SEOG, Work Study or Perkins loan)

A query was created to specifically identify housing status changes on the FAFSA. This query is now being run once per week to eliminate this as a future concern.

The third issue identified is a result of a process used to disburse Millennium Scholarship awards for the summer term and no over/under award resulted due to this process. This process loads 'generic' budgets to prevent the Millennium Award from rejecting as the PeopleSoft system requires a budget in order to disburse even though the award is based only on number of enrolled eligible credits. The process is utilized in mid-September, after the close of the summer session and so the risk associated with the use of the generic budget is minimized because Federal award processing is on an exception-only basis after the end of the term. The exception only processing requires high level system access which is limited to a small number of key staff charged with reviewing exception processing details to ensure accuracy. Nonetheless, a new process will be developed prior to the summer 2014 term which will automate loading budgets based on student specific summer term enrollment to eliminate this concern.

Condition

CSN and UNLV did not properly update FASFA information as a result of the verification process. At CSN, some documentation of the verification process was not maintained.

Context

Five of the sixty-seven students tested at CSN, the Institution did not properly update FAFSA information or maintain documentation of information required to be verified. For one student the number of parties in the household was not properly updated to reflect the information submitted for verification. Award year 2011-12 Verification Review

The College of Southern Nevada received an audit finding for Award Year 2011-12, 2012-13--Verification and Updating of Student Aid Application Information as identified by our external/independent auditors. The finding noted that while information “was not properly updated per the information submitted for verification”, no questionable costs were initially identified as a result of the sample taken and errors identified. The College of Southern Nevada’s response to that finding stated:

“The College of Southern Nevada concurs with this recommendation. With the implementation of the PeopleSoft system, new ways to verify had to be established. An internal verification review checklist utilized with the SIS system was initially discarded. Over time it was realized that a review checklist was helpful to ensuring verification accuracy, and the “old” list was modified to work with the new PeopleSoft system. Additional queries have also been developed and staffing in the verification area has been strengthened. Finally a departmental audit function was started whereby the supervisor will pull a certain number of files to check for accuracy and to determine if there are common errors that might occur that would indicate that additional targeted training might be necessary. This multi-pronged approach will ensure that accuracy and timeliness are maintained.”

On March 4, 2013, the NSHE Chancellor’s Office received a letter from the Department of Education requesting a follow-up to the finding for Award Year 2011-12 A-133, as it relates to the verification process.

Award year 2011-12 Verification Review - Continued

The Department of Education letter specifically required (pages 3-4) that CSN:

...NSHE must determine the exact amount of institutional liability associated with this finding. NSHE is required to perform a full file review of the entire universe of Title IV financial aid recipients from July 1, 2011 through June 30, 2012 who were selected for verification, and determine if all the students' files contact the verification documentation and if the verification was completed correctly...

...In lieu of performing a file review for the entire population of students who were selected for verification, NSHE has the option of providing a statistically valid sample. If the election of is made to provide a statistical sample, the Department will use the results of the sampling to project liabilities for the entire population (i.e. the average liability for the recipients in the statistical sample will be multiplied by the total population). This option is only intended to reduce the burden on the institution of conducting a full file review.

CSN decided that to fully evaluate the verification process, a review of all files identified for Award Year 2011-12 verification would be completed. As a result of the scope of review selected, the Financial Aid/Student Affairs Office determined that 7,332 files must be reviewed. On March 25, 2013, CSN entered into a contract with ProEducation Solutions to verify the total population of 7,332 student files.

ProEducation Solutions completed the file review on April 20, 2013. Their review specified if the file was verified accurately or inaccurately. Those files that were identified as “inaccurately verified” were then reviewed by CSN Financial Aid/Student Affairs. Inaccurate files may have required locating submitted documentation, identifying missing documentation, and/or verifying a change in the Expected Family Contribution (EFC) or confirming that no change in EFC was required.

CSN Student Affairs/Financial Aid determined the institutional net liability for Award Year 2011-12 to be \$792,399. This amount was communicated by letter from CSN to Department of Education Audit Resolution Specialist Terri Tom on May, 29, 2013.

Award Year 2012-13 Verification Review

Due to the high error rate that CSN experienced for Award Year 2011-12 verification records, CSN decided that a similarly complete review would be performed on all Award Year 2012-13 records that had been selected for verification. ProEducation Solutions completed this project for 6,016 records.

Since this review was being conducted while the award year was still open for processing, as inaccuracies were identified corrections were processed through the Department of Education’s Common Origination and Disbursement (COD) system. As a result of the review, over awards of approximately \$866,000 were identified. The College has continued to work diligently with students to obtain documentation and to correct areas of inaccurate verification in an effort to reduce the amount of over awards.

Looking Ahead to Award Year 2013-14

Errors in student file verifications and in the updates to student aid application information are unacceptable to CSN. As a result of the processing inaccuracies that were identified for Award Years 2011-12 and 2012-13, CSN has outsourced the complete verification process to a third-party firm. We will handle verifications in this manner until further notice.

CSN has also undertaken several corrective actions to address the deficiencies noted in the 2012-13 A-133 audit process. These actions include utilizing an external consultant to perform a comprehensive external and independent review of operations and associated functionality within the Financial Aid Department to ensure effectiveness and efficiency.

The external assessment and operational review encompasses all aspects of activities required of higher education financial aid offices and departments. The scope of review includes:

- Conducting a review of the people, processes and technology within the financial aid operations to assess departmental program management, administrative capability, and overall effectiveness for administering Title IV federal student aid programs;
- Provide deliverables that support the review and assessment, including recommendations for enhancing processing efficiency and effectiveness within the financial aid operations at CSN.

Once completed, the assessment process will provide recommendations that guide the strategic development of CSN financial aid operations including quality control and assurance processes. The assessment is anticipated to be completed by mid-November 2013, and the consultant's final report will be forthcoming within the following 60 days. The outcomes of the assessment process are envisioned to address operational deficiencies that have resulted in repeated findings identified through the external/independent audit. The consultant's final report recommendations will be reviewed and implemented by the College as appropriate.

UNLV Response

UNLV agrees with this finding. Human error resulted in the FAFSA for the student identified to not be updated after receiving documentation of information in the verification process. This resulted in an over-award of \$900 more in federal Pell grant than otherwise qualified and this amount has been returned to the U.S. Department of Education.

The office has training programs and a review process already in place. Staffing levels allowed the office to randomly review 10% of verifications previously completed within the office for accuracy during the course of the 2012-2013 school year. A total of 11,159 students were selected for verification during the 2012-2013 school year and the 10% sampling review did not find any additional errors beyond the one found in the audit sample. We believe based on this 10% sampling review that this one finding is an isolated incident in this manual verification process.

**FINDING 2013-010 – Special Tests and Provisions: Return of Title IV funds for withdrawn students
(Repeat finding 2012-04 and 2011-03)**

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Assistance Cluster
Award year ended June 30, 2013

Criteria

When computing the federal aid to return to the U.S. Government for students who received financial assistance and then withdrew from classes, 34CFR 668.22(f)(2)(i) requires that the total number of calendar days in a payment period or period of enrollment include all days within the period, except that scheduled breaks of at least five (5) consecutive days are excluded from the total number of calendar days in a payment period or period of enrollment and the number of calendar days completed in that period.

Condition

CSN did not exclude spring break (scheduled break greater than five days) in the Return to Title IV calculation, either in either the period of enrollment or the number of calendar days completed in the period.

Context

For thirty-seven out of sixty students selected for testing at CSN an incorrect percentage of aid earned was calculated as the PeopleSoft system did not exclude 9 days related to Spring Break for the total spring 2013 semester and periods of enrollment from the first day of instruction.

Questioned Costs

\$39,125

Effect

Returns were calculated incorrectly and the federal funds returned to the U.S Department of Education were short by \$39,125 based on CSN's recalculations for 1,634 students.

Cause

The Admissions department excluded two week days from the spring break holiday when populating PeopleSoft calendar at the start of the semester. This calendar is used to calculate the number of days in the semester in Return to Title IV calculations. The exclusion of the two days caused the system to include spring break in the calculation as the system did not recognize it as a break greater than five days that needed to be excluded from the calculation of percentage of aid earned.

Recommendation

We recommend CSN re-compute return figures for all applicable students in the sample tested and in the broader population, and implement a more comprehensive review process of Return to Title IV calculations, including accuracy of the calendar used as the basis for the calculation.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

CSN concurs with the recommendation and has taken corrective actions. CSN's Office of the Registrar creates its annual academic calendar in PeopleSoft a year in advance from the start of a designated year. The purpose of this advance set-up is to input all relevant registration related dates, including holidays, and to conduct critical preliminary testing to ensure the system's accuracy before the start of the academic year. The accuracy of the PeopleSoft calendar is crucial due to its multiple uses, one of which is the correct computation of *Return to Title IV* (R2T4) calculations.

The referenced finding noted that, when the "holiday" calendar was created, two days were excluded from the spring break period. Because of this error, the PeopleSoft system failed to recognize that the spring break period actually lasted more than five days. This caused an error in the R2T4 calculations, and the return of funds to the U.S. Department of Education was short in the amount of \$39,125. By assigning the calendar creation responsibility to the Assistant Registrar alone without requiring secondary inspection by other staff members, the Office of the Registrar failed to build redundancy into its operational procedures and sent to production an incorrect calendar.

The following procedural changes have been implemented to prevent this error from reoccurring:

1. Upon creating the academic calendar in PeopleSoft a year in advance, the Assistant Registrar will notify the Systems Manager in Financial Aid to verify for accuracy of dates, confirm synchronization with related functions, and alert of any corrections. Turnaround time for confirmation and corrections is seven calendar days,
2. The Systems Manager in Financial Aid will proceed to notify all three - the Assistant Registrar and creator of the calendar, the Registrar and the Assistant Vice President of Financial Aid that the calendar's verification has been completed,
3. The Registrar and the Assistant Vice President of Financial Aid must then confirm acceptance in writing and documentation shall be maintained of the four level review and approval process (Assistant Registrar, Systems Manager in Financial Aid, the Registrar, and the Assistant Vice President for Financial Aid.) Review and approval will be performed and obtained prior to the schedule being placed into production within PeopleSoft.

CSN Financial Aid performed recalculations on all individuals affected by the error in the calendar. CSN staff completed recalculations on 1,634 students that resulted in a shortage to the U.S. Department of Education in the amount of \$39,125. The corrections were completed once the oversight was realized during the onsite field testing; these corrections were completed in July and August 2013.

FINDING 2013-011 - Special Tests and Provisions: Return of Title IV Funds for Withdrawn Students (Repeat finding 2012-07 and 2011-09) - Continued

Criteria or Specific Requirement

When computing the federal aid to return to the U.S. Government for students who received financial assistance and then withdrew from classes, 34 CFR 668.22(e) requires calculation of the amount of Title IV assistance earned by the student- (1) General. The amount of Title IV grant or loan assistance that is earned by the student is calculated by- (i) Determining the percentage of Title IV grant or loan assistance that has been earned by the student, as described in paragraph (e)(2) of this section; and (ii) applying this percentage to the total amount of Title IV grant or loan assistance that was disbursed (and that could have been disbursed, as defined in paragraph (l)(1) of this section) to the student, or on the student's behalf, for the payment period or period of enrollment as of the student's withdrawal date.

Condition

In one instance at TMCC, we noted an ineligible course's drop date was included in the calculation which resulted in an incorrect amount of funds returned to the U.S. Government for a student who withdrew.

In three instances at CSN, we noted miscalculations which resulted in an incorrect amount of funds returned to the U.S. Government for three students who withdrew.

Context

During our testing at TMCC, for one out of eighty-five students selected for testing, the percentage of aid earned used in the Return to Title IV included an ineligible course's drop date. This resulted in an incorrect amount of Title IV funds were returned.

During our testing at CSN, for three out of fifty-eight students selected for testing, incorrect amounts were used in the Return to Title IV calculation, including erroneously adjusting the PELL grant amount as well as the Direct Loan amount. This resulted in an incorrect amount of Title IV funds returned.

Questioned Costs

TMCC - \$79

CSN - \$34

Effect

Returned Title IV funds were calculated incorrectly.

Cause

TMCC uses a shared PeopleSoft that display students' classes or activity at other NSHE institutions. A Western Nevada College course was included in the TMCC Return to Title IV calculation. This error was not discovered by the internal control environment.

CSN miscalculations were due to transcription errors.

Recommendation

We recommend TMCC implement policies and procedures to ensure that only eligible courses are included in the Return to Title IV calculation. Management should evaluate the existence of this issue of non-compliance in the remaining population and remediate as necessary.

We recommend that CSN enhance internal controls to improve the accuracy of reporting to the COD reporting system.

TMCC Response

TMCC agrees with this finding and recommendation. Return to Title IV queries were developed while TMCC was still the only institution processing aid in the shared instance; the queries were updated immediately after discovery of this exception, to exclude courses from other institutions. After review of 12-13 Return to Title IV calculations, it was determined that the issue discovered by the audit was the only instance.

CSN Response

CSN concurs with this recommendation and is taking the following actions to strengthen internal controls to improve accuracy. CSN is in the process of a complete retraining of all employees who perform R2T4 overpayments and recalculations. These employees will be given both pre-testing and post-testing to confirm that the employees demonstrate the necessary knowledge to perform these calculations correctly.

An additional process that is being implemented provides for one staff member to prepare the R2T4 calculation and another staff member to verify the calculations. This will ensure that the R2T4 calculations are performed correctly and provide for quality control of the process.

CSN has undertaken several corrective actions to address the deficiencies noted in the 2012-13 A-133 audit process. These actions include utilizing an external consultant to perform a comprehensive external and independent review of operations and associated functionality within the Financial Aid Department to ensure effectiveness and efficiency.

The external assessment and operational review encompasses all aspects of activities required of higher education financial aid offices and departments. The scope of review includes:

- Conducting a review of the people, processes and technology within the financial aid operations to assess departmental program management, administrative capability, and overall effectiveness for administering Title IV federal student aid programs;
- Provide deliverables that support the review and assessment, including recommendations for enhancing processing efficiency and effectiveness within the financial aid operations at CSN.

Once completed, the assessment process will provide recommendations that guide the strategic development of CSN financial aid operations including quality control and assurance processes. The assessment is anticipated to be completed by mid-November 2013, and the consultant's final report will be forthcoming within the following 60 days. The outcomes of the assessment process are envisioned to address operational deficiencies that have resulted in repeated findings identified through the external/independent audit. The consultant's final report recommendations will be reviewed and implemented by the College as appropriate.

FINDING 2013-012 - Reporting – Common Origination and Disbursement (COD) System

- Continued

Criteria

Pursuant to the 34 CFR 690.83(b)(2) an institution shall submit, in accordance with deadline dates established by the U.S. Department of Education (Secretary), through publication in the Federal Register, other reports and information the Secretary requires and shall comply with the procedures the Secretary finds necessary to ensure that the reports are correct. Pursuant to 34 CFR 668.22(j)(1), an institution must return the amount of Title IV funds for which it is responsible as soon, but no later than 45 days, after the date of the institution's determination that the student withdrew.

Condition

We noted one instance at TMCC where the amount reported as returned funds in the U.S. Department of Education's Common Origination and Disbursement (COD) reporting system was different from the amount actually returned to the U.S. Department of Education.

We noted five instances at CSN where the amount reported as disbursed funds in COD was different from the amount actually disbursed to the student.

Context

During our testing at TMCC, it was noted for one out of eighty-five students selected for testing, the amount reported for Return of Title IV funds varied from the amounts actually returned.

During our testing at CSN, it was noted for five out of fifty-eight students selected for testing, the amount reported for disbursed Title IV funds varied from the amounts actually disbursed.

Questioned Costs

TMCC - \$0

CSN - \$0

Effect

Title IV funds reported as returned and disbursed in the COD system varied from the amounts actually returned and disbursed to the U.S Department of Education. No over awarding occurred due to this issue of noncompliance.

Cause

The return amount at TMCC reported in COD did not agree to the amount returned to the U.S. Department of Education due to a transposition error made by the personnel reporting the return to COD.

The disbursed amount at CSN reported in COD did not agree to the amount actually disbursed as the Institution erroneously classified the difference as an overpayment to the students.

Recommendation

We recommend the Institutions enhance internal controls to improve the accuracy of reporting to the COD reporting system. Management should evaluate the existence of this issue of non-compliance in the remaining population and remediate as necessary.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

TMCC Response

TMCC agrees with this finding and recommendation. The transposition error noted resulted in a .0003 error rate for Return to Title IV processing. The staff member who made the transposition error was notified and will take greater care in keying amounts.

CSN Response

CSN concurs with this recommendation and has taken the following corrective actions. CSN has implemented a process that balances the amounts disbursed in PeopleSoft with the amounts reported to the Common Origination and Disbursement System (COD). This process is run on an ongoing and systematic basis, monthly.

Per the recommendation, the remaining students will be evaluated, and necessary corrections as identified during the review process will be made.

CSN has undertaken several corrective actions to address the deficiencies noted in the 2012-13 A-133 audit process. These actions include utilizing an external consultant to perform a comprehensive external and independent review of operations and associated functionality within the Financial Aid Department to ensure effectiveness and efficiency.

The outcomes of the assessment process are envisioned to address operational deficiencies that have resulted in repeated findings identified through the external/independent audit. The consultant's final report recommendations will be reviewed and implemented by the College as appropriate.

FINDING 2013-013 – Special Tests and Provisions: Enrollment Reporting (Repeat Finding 2012-15 and 2011-17) - Continued

Criteria or Specific Requirement

Pursuant to CFR 685.309, upon receipt of a student status confirmation report from the Secretary, an institution must complete and return that report to the Secretary within 30 days of receipt; and unless it expects to submit its next student status confirmation report to the Secretary within the next 60 days, notify the Secretary within 30 days if it discovers that a Direct Subsidized, Direct Unsubsidized, or Direct PLUS

Loan has been made to or on behalf of a student who:

- (i) Enrolled at that school but has ceased to be enrolled on at least a half-time basis;
- (ii) Has been accepted for enrollment at that school but failed to enroll on at least a half-time basis for the period which the loan was intended; or
- (iii) Has changed his or her permanent address.

Condition

We noted CSN did not report student status changes to the National Student Loan Data System (NSLDS) within 30 days of the change as required by the regulations.

Context

For five out of twenty five students selected for testing at CSN, the students' changed enrollment status was not reported to NSLDS within 30 days of the change.

Questioned Costs

\$0

Effect

The Institution does not comply with the specific requirements of Federal Regulations with respect to timely student status communications to the Secretary.

Cause

For three of the five instances noted, no enrollment report was uploaded to NSLDS in April 2013 due to oversight by personnel processing information. For two of the five instances noted, there was a technical issue with the upload to NSLDS in October 2012 that caused change student status to not update in NSLDS. This was not subsequently corrected in NSLDS.

Recommendation

We recommend the Institution develop policies and procedures to ensure student status changes are uploaded timely to NSLDS, to correct for known errors and evaluate if there are additional errors in the broader population.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation and takes the following corrective actions. For the five students referenced in the finding, the incorrect reporting of enrollment status changes to NSLDS was tied to errors in the upload of information to the National Student Clearinghouse. The reporting of status changes to NSLDS is a two part process. It starts with CSN uploading the sample student information to the National Student Clearinghouse. Once the National Student Clearinghouse accepts the data, they forward the records to Department of Education and NSLDS is notified of student status changes.

CSN has adopted new internal procedures to assure timeliness and accuracy. These corrective measures will help the College avoid enrollment reporting deficiencies which resulted in the finding:

1. Instead of uploading the enrollment report to the National Student Clearinghouse once a month as required, the College will upload the report to the clearinghouse twice monthly to ensure both the accuracy of enrollment status changes and timely submission of the information.
2. The College will sample a larger number (20) of students and of that number; 10 students will be provided by the Financial Aid Office for added accuracy measures.
3. Before sending to the national clearinghouse, the College will compare the academic status level of the sample students reflected on the prepared National Student Clearinghouse report to that which is reflected on the College's own enrollment activity and academic status in PeopleSoft. Any discrepancies will be investigated and fixed. This step will ensure that the data is the same. Once the data is confirmed to be accurate, the full report will be uploaded to the National Student Clearinghouse.

The Assistant Registrar will contact National Student Clearinghouse twice a month before sending each report to verify that the data coming through on the clearinghouse side matches CSN's uploaded report. Errors, if any, can be resolved immediately and timely submission ensured. Once CSN has verified that National Student Clearinghouse has received the report, CSN's Assistant Registrar will subsequently validate that the enrollment report has been provided to the Department of Education. The revised process will ultimately ensure NSLDS receiving the student status changes within the established timeline.

Previous audit findings related to the National Clearinghouse and the reporting of the correct student standing have been addressed. With assistance from Cedar Crestone and NSHE System Computing Services adjustments have been made to the several setup tables. Every quarter PeopleSoft provides upgrades to the system. The Office of the Registrar will do extensive testing to assure that the enrollment verification file is pulling the correct enrollment status.

CSN has also undertaken several corrective actions to address the deficiencies noted in the 2012-13 A-133 audit process. These actions include utilizing an external consultant to perform a comprehensive external and independent review of operations and associated functionality within the Financial Aid Department to ensure effectiveness and efficiency.

FINDING 2013-014 - Special Tests and Provisions: Enrollment Reporting (Repeat finding 2012-14 and 2011-16) - Continued

Context

Testing at UNLV identified one of ninety students selected for testing where the status of “Withdrawn” was reported to NSLDS whereas the student’s enrollment was “Half-Time” at the Institution during the spring 2013 semester.

Questioned Costs

\$0

Effect

The Institution did not comply with the specific requirements of Federal Regulations with respect to student status communications to the Secretary.

Cause

The query process used in the PeopleSoft system to update students’ enrollment from “withdrawn” to enrolled for students that have re-enrolled into in eligible programs was run incorrectly during the year causing an incorrect status for a student in PeopleSoft that was subsequently uploaded to NSLDS.

Recommendation

We recommend the Institution enhance internal controls to ensure student status changes are uploaded and reported accurately to NSLDS. Management should evaluate the existence of this issue of non-compliance in the remaining population and remediate as necessary.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this finding. UNLV discovered an issue with status reporting when a student was simultaneously enrolled in a graduate and an undergraduate degree program as the delivered reporting process only reported on the ‘primary’ enrollment status. This issue was identified prior to this audit and has already been addressed through a modification (customization) to the clearinghouse report.

(Repeat finding 2012-16) - Continued**

Condition

UNR's internal control system surrounding the timely Return of Title IV funds to the U.S. Department of Education is not operating effectively for un-cashed federal aid checks to students.

Context

The Institution's review process for outstanding or un-cashed Title IV checks for balances that need to be returned within the required 240 days is not performed timely.

Questioned Costs

\$0

Effect

Although no compliance exception was noted during our testing, the internal controls over this compliance area were not designed effectively.

Cause

The review of outstanding checks is only performed twice in an academic year. This is not an adequate frequency to ensure checks disbursed in the later part of the semester are returned within the required 240 days.

Recommendation

We recommend the Institution implement processes to ensure outstanding check listings for Title IV funds are reviewed more frequently to ensure timely return of funds to the U.S. Department of Education.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

The University of Nevada, Reno concurs with this finding. The Cashier's office and Financial Aid have implemented procedures to remind students within 60 days that they have been issued a check which has not yet been cashed. Financial Aid runs a report at 120 days to determine which outstanding checks are from federal financial aid and attempts to notify students by phone or email prior to pulling back the funds. Any checks still outstanding after attempts to notify students have been made will be issued a stop payment and funds will be returned to the U.S. Department of Education prior to the expiration of the 240 day deadline. All other outstanding student checks will be handled with the regular stale dated check procedures.

Condition

UNLV disbursed Title IV funds earlier than 10 days before the first day of classes.

Context

Testing at UNLV identified Title IV funds were disbursed earlier than 10 days before the first day of the spring semester for one out of sixty students tested.

Questioned Costs

\$0

Effect

The Institution did not comply with the specific requirements of Federal Regulation with respect to disbursements of Title IV funds.

Cause

There are certain programs that start earlier than the standard semester. The student financial assistance department utilized the earlier start date for a program that actually started at the standard semester start date due to oversight by the personnel updating the disbursing information in the system.

Recommendation

We recommend the Institution enhance internal controls to ensure Title IV funds are not disbursed earlier than 10 days before the first day of classes. Management should evaluate the existence of this issue of non-compliance in the remaining population and remediate as necessary.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

The Masters of Hospitality program has students enroll within a cohort of classes. The schedule is normally to be fixed regarding the total number of classes taken each semester and these classes have specific start and end dates that are not all aligned with the standard academic calendar. Based upon information from the academic department, the start and end dates of semester are programmed into the computer system for this program.

One student within this program was allowed to drop one out of several classes and the financial aid office was not notified by the academic department of this change. When this occurred, the class the student dropped was the class with the early start date. This action materially changed the start date of the program for this student since the other classes within the cohort were not scheduled to start until a later date.

As a result of this finding, the Financial Aid Office reviewed all 2012-2013 students in this program to ensure no other cases occurred. In order to prevent this from occurring in the future, all students within the Masters of Hospitality program now incur a financial aid disbursement hold. No federal financial aid will disburse until a financial aid staff member has verified the student has not dropped any scheduled classes they are supposed to be taking. Once class schedule has been verified, only then will federal financial aid be released to the student.

Criteria

Pursuant to the 34 CFR 690.83(b)(2) an institution shall submit, in accordance with deadline dates established by the Secretary, through publication in the Federal Register, other reports and information the Secretary requires and shall comply with the procedures the Security finds necessary to ensure that the reports are correct.

Condition

UNR, TMCC, UNLV and CSN each reported incorrect cost of attendance (COA) to the Common Origination and Disbursement (COD) system related to Pell Grant Awards.

Context

For five out of seventy-two students tested at UNR, two out of sixty students tested at CSN, seven out of sixty students at UNLV, and two out of sixty students at TMCC, the COA reported to COD was not accurate.

Questioned Costs

\$0

Effect

The Institutions did not comply with the specific requirements of Federal Regulation with respect to reporting Pell payment data to the Secretary. No over awarding occurred due to this issue of noncompliance. This is a reporting issue.

Cause

At UNR, the records office documented sixteen weeks of instruction for certain programs in PeopleSoft. The Pell COA function in PeopleSoft prorated the COA over the sixteen weeks rather than using the Institution's standard fifteen week semester, causing an incorrect Pell COA calculation. At CSN, UNLV, and TMCC, PeopleSoft has a programming error in the budget setup that causes the Pell COA to double any time a single term budget is recalculated after the initial budget is created. The Institutions were unaware of the problem or the existence of a query created by PeopleSoft to recalculate the Pell COA back to the correct initial budget.

Recommendation

We recommend the Institutions implement processes to ensure information reported to COD is accurate.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

The University of Nevada, Reno agrees with this finding. The Financial Aid Office contacted the Admissions and Records Office to adjust calendar settings to ensure the proper calculations of the Pell cost of attendance. This was corrected upon receipt of the finding and will be in effect for this financial aid year and in the future.

FINDING 2013-017 - Reporting – Common Origination and Disbursement (COD) System

- Continued

Views of Responsible Officials and Planned Corrective Actions (Unaudited) - Continued

CSN Response

The College of Southern Nevada concurs with the recommendation. As described in the “Cause” section, this is a programming error that exists in PeopleSoft budget setup that causes the Cost of Attendance to double any time a single term budget is recalculated after the initial budget is created. PeopleSoft has developed a query to recalculate the Pell Cost of Attendance back to the initial budget.

CSN ran the query for Award Year 2013-14, however, there is a further error that was identified in the process whereby for some students, the Cost of Attendance is reported as 0.00. CSN has identified a small population where this occurred and will take corrective action.

CSN will write a query designed to pull the Pell budgeted population for further review to ensure accuracy after the PeopleSoft query has been run. CSN will run its query prior to running the Common Origination and Disbursement submission files to ensure that they are correct and will re-run budgets for any files that are identified as inaccurate.

Until the technical solution is achieved by PeopleSoft to address this finding, the query will be run and reviewed by the Assistant Vice President for Financial Aid and reported to CSN administration.

TMCC Response

TMCC agrees with this finding and recommendation, which was a result of a training error on the part of the Cedar Crestone consultant during implementation. After researching a solution using the Higher Education User Group forum for PeopleSoft, a set-up correction from 2004 was discovered and immediately corrected. The Pell COD reports for 2013-14 were corrected and retransmitted to correct this reporting error going forward.

UNLV Response

The PeopleSoft system as delivered correctly adjusts the Pell grant cost of attendance upward or downward in a batch job if no manual human intervention was involved within the construction of the cost of attendance. If the cost of attendance was manually adjusted in some capacity, the Oracle software did not accurately recalculate the cost of attendance for the Pell grant program and reporting to Common Origination and Disbursement.

There was no financial liability associated with this finding. UNLV's cost of attendance is at a level where changes in student enrollment would not have changed the scheduled federal Pell grant award.

A job was created by financial aid technical support staff, to recalculate the cost of attendance correctly in PeopleSoft for accurate data reporting to Common Origination and Disbursement.

Award year ended June 30, 2012

Criteria

Federal Perkins Loan (34 CFR 674.19), Federal Work Study (34 CFR 675.19) and FSEOG (34 CFR 676.19) require submission of an annual Fiscal Operations Report and Application (FISAP) report to the Department of Education. This electronic report is required to be submitted annually to report on the use of funds received in the prior year and apply for funds for the next year for campus-based programs. FISAPs are required to be submitted by October 1 following the end of the award year. The OMB A-133 Compliance Supplement identifies key line items in the report that contain critical information.

Condition

UNLV did not report accurate student counts in Part II, Section F, fields 26 through 39, (a) through (e).

Context

UNLV reported some inaccurate student data in the FISAP .

Questioned Costs

\$0

Effect

Reporting inaccurate information could impact the funding awarded for the next award year ending June 30, 2014.

Cause

With respect to information on eligible aid applicants enrolled in the school, the students with an "Automatic" Expected Family Contribution of zero were not manually removed from the population when filling out the number of students in each income bracket for the remaining fields so there was a duplication of students reported. This error was not discovered by the individuals responsible for completing and approving the FISAP.

Recommendation

We recommend UNLV enhance its quality control review of data in the FISAP before it is finalized and submitted.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this finding. The query utilized to pull the data associated with Part 2, Section F (student counts by income levels) of the FISAP worked accurately. However, the data was not adjusted to prevent the duplication between reporting categories noted in the finding. There is no financial liability associated with this error. Corrections will be submitted in the December 13, 2013 final FISAP submission process. This error also does not affect any funding for federal student aid programs next year. The data submitted is informational to the U.S. Department of Education.

Criteria

Federal Acquisition Regulation clause 52.204-10(c)(1) outlines prime recipient reporting requirements for the Federal Funding Accountability and Transparency Act (FFATA). The requirement reads, “unless otherwise directed, by the end of the month following the month of award of a first-tier subcontract with a value of \$25,000 or more, the Contractor shall report” relevant contract information.

Condition

We noted that both the Desert Research Institute and University of Las Vegas did not report sub-recipient contracts timely.

Context

Testing at the Desert Research Institute identified three out of three FFATA reports examined were filed late. Testing at the University of Nevada Las Vegas identified one out of three FFATA reports examined were filed late. Good faith efforts were attempted to meet the reporting requirements but were not successful do to technological problems. Good faith efforts documentation was not retained.

Questioned Costs

\$0

Effect

Failure to submit required reports timely fails to honor the intent of the federal agency to provide transparency for the sub-awards on usa.spending.gov, the website where reported information is available for public viewing.

Cause

The responsible parties did not submit the report prior to deadline or document their efforts to report the sub-recipient contract.

Recommendation

We recommend that the Institutions design and implement processes and controls to ensure sub-recipient contracts are communicated timely to those individuals responsible for reporting them. Furthermore, when technological problems prevent timely reporting, we recommend these individuals document their attempts to report as well as their communications with sponsoring agencies.

DRI Response

We concur with the finding; however attempts were made to get the information in the federal database in order to report FFATA subcontracts. We did not document these attempts as we were not aware of the requirements of A-133 documentation at the time of reporting (final audit supplement was not issued until June 2012). We now have in place processes to document attempts to get the necessary information into the federal database to report subcontracts timely.

UNLV Response

UNLV agrees with this recommendation. We understand the importance of timely reporting and have implemented processes to assure reports are submitted in a timely fashion. FFATA reporting was a new requirement in FY12, and the submission system and reporting requirements were new as well. The initial report UNLV submitted was late due to investigations into the reporting process to assure our report was accurate and submitted in the proper format. However, once we verified the requirements and how the FFATA reporting system operated, all subsequent reports were submitted in a timely manner. We anticipate all future reports will be timely, but if situations arise in the future that impact timely submission full documentation will be retained.

FINDING 2012-02 - Equipment and Real Property Management - Continued

Cause

The responsible party failed to use the correct invoice price when recording the assets in the fixed asset subsidiary ledger.

Recommendation

We recommend the University evaluate its current process and procedures for equipment and real property management to better incorporate review procedures for items.

UNR Response

The three equipment purchases not accurately recorded within the University's equipment subsidiary ledger have been corrected in the system to reflect the accurate acquisition cost.

FINDING 2012-03 - Internal Control over Compliance (Repeat finding 2011-02 and 2010-04)

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Assistance Cluster
Award year ended June 30, 2012

Criteria

The A-102 Common Rule and OMB Circular A-110 (2 CFR part 215) require that non-Federal entities receiving Federal awards (i.e. auditee management) establish and maintain internal control designed to reasonably ensure compliance with Federal Laws, regulations, and program compliance requirements.

Condition

We noted a lack of security administration related to the PeopleSoft application. Specifically controls were lacking around restricting access as it relates to the PeopleSoft application over financial aid eligibility configuration and student accounts at UNLV. In addition, change management documentation around testing results and approval by users were not consistently available for the PeopleSoft application.

Context

During our testing of the information technology controls at UNLV surrounding PeopleSoft it was noted that a programmer had access to live applications. In addition, documentation around testing results and approval by users was not consistently available for the PeopleSoft application. The lack of security administration controls could impact compliance requirements related to student eligibility, accuracy of award amounts, disbursement processing, accuracy and timeliness of reporting.

FINDING 2012-03 - Internal Control over Compliance (Repeat finding 2011-02 and 2010-04)

- Continued

Effect

Student data within the PeopleSoft application may be affected by unauthorized or inappropriate users having access or users having conflicting roles or access levels. Student data may be affected by unauthorized, inappropriate, or untested changes to the system which could result in non-compliance with student eligibility, accuracy of award amounts, disbursement processing, as well as accuracy and timeliness of reporting.

Cause

The issues identified are part of the implementation of PeopleSoft.

Recommendation

Programmers should be restricted from access to live applications and ensure proper documentation of change management testing results and approval by users.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. Subsequent to the FY11 audit findings, procedures were implemented to ensure periodic user access reviews are completed and password and system lockout protocols are in place. The remaining user security issue noted in this finding is due to a single programmer having specific job duties requiring access to the production environment which is not ideal, but can occur due to limited technical resources. In order to address this ongoing conflict of responsibilities, a process is in development that will grant the necessary access to the production environment based on approval for limited, specified time periods to accomplish specific job functions on a case-by-case basis.

Regarding the inconsistency of change-management documentation around testing results and user approvals, UNLV categorizes change-management into three categories based on the nature of the system change being implemented. These include NSHE-wide system modifications, UNLV-specific system modifications, and Oracle/PS updates/bundle-fixes, etc. Due to the different nature of these types of system changes, the documentation protocols established were not consistent. In order to address this finding, UNLV will revisit the established protocols for documenting changes within these classifications and ensure sufficient documentation requirements are met consistently.

FINDING 2012-04 - Special Tests and Provisions: Return of Title IV Funds for Withdrawn and Unofficially Withdrawn Students (Repeat finding 2011-03) - Continued

Criteria

34 CFR 668.22(f)(2)(i) requires that the total number of calendar days in a payment period or period of enrollment includes all days within the period, except that scheduled breaks of at least five (5) consecutive days are excluded from the total number of calendar days in a payment period or period of enrollment and the number of calendar days completed in that period.

Condition

We noted that the University of Nevada, Las Vegas (UNLV) excluded 9 days for spring break in the return to title IV calculation for the period of enrollment or the number of calendar days completed in period. However, given that class was offered the Saturday before spring break only 8 days should be excluded from calculation, which results in incorrect amount of Title IV aid returned.

Context

During our testing, for thirty-five out of sixty students selected for testing at the University of Nevada, Las Vegas an incorrect percentage of aid earned was calculated as the PeopleSoft system excluded 9 days related to spring break for the total spring 2012 semester and periods of enrollment from the first day of instruction.

Questioned Costs

\$9,109

Effect

Return to Title IV funds were calculated incorrectly.

Cause

The admissions department included 9 days for spring break as a holiday in the PeopleSoft calendar that was used to calculate the number of days in the semester in return to Title IV calculations.

Recommendation

We recommend the University re-compute student returns for all applicable students, an implement a more comprehensive review process of return to title IV calculations including the calendar used as the basis for the calculation.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. The items in question were recalculated based on the corrected calendar and funds were returned appropriately. For future terms, the calendar will be more carefully reviewed with the Financial Aid and Registrar's offices to verify the accuracy of the holiday break schedule to include classes scheduled on Saturday.

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Assistance Cluster
Award year ended June 30, 2012

Criteria

34 CFR 668.22(j) states that the "Timeframe for the return of Title IV funds. (2) For an institution that is not required to take attendance, an institution must determine the withdrawal date for a student who withdraws without providing notification to the institution no later than 30 days after the end of the earlier of the (i) Payment period or period of enrollment, as appropriate, in accordance with paragraph (e)(5) of this section; (ii) Academic year in which the student withdrew; or (iii) Education program from which the student withdrew.

Condition

We noted that the College of Southern Nevada, in nine instances, did not determine withdrawal date for students who unofficially withdrew within 30 days of the semester end date.

Context

During our testing at College of Southern Nevada, it was noted for nine of twenty-five students tested, the institutional determination date was more than 30 days after the semester end date.

Questioned Costs

\$12,813

Effect

The College of Southern Nevada is not in compliance with federal regulation timeframes.

Cause

Due to a technical error in PeopleSoft, the query ran at the end of the semester to identify all students who unofficially withdrew was not accurate; therefore, the return to Title IV form was not initiated within 30 days after grades were due in the fall 2011 semester.

Recommendation

We recommend the University develop and implement policies to ensure return to Title IV calculations are completed accurately and timely.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation. During the Fall 2011 semester, CSN recognized that Financial Aid staff required additional training and support to ensure successful implementation of PeopleSoft. CSN contracted with Cedar Crestone (the NSHE consultant for PeopleSoft) to provide 30 days of on-site support to assist staff to develop accurate compliance-related queries. The technical error in PeopleSoft referred to in the finding has been corrected, and the department will use greater care to ensure that compliance with the Return of Title IV funds is completed within the 30-day timeframe.

CSN Response - Continued

Additional PeopleSoft queries were developed and are run during the semester to accurately and effectively identify the students who have officially withdrawn and their date of withdrawal. When grades are posted at the end of the semester, a query is processed to specifically identify those students who have unofficially withdrawn and those students are captured at that time. These system changes ensure the accuracy of identifying all withdrawn students for whom a *Return to Title IV* calculation must be completed and that this occurs within the specified deadline parameters. This recommendation has been implemented.

Criteria or Specific Requirement

Per 34 CFR 668.22(j)(1), an institution must return the amount of Title IV funds for which it is responsible as soon but no later than 45 days after the date of the institution's determination that the student withdrew.

Condition

We noted that at the University of Nevada, Las Vegas, in five instances, and at the College of Southern Nevada, in two instances, the institutions did not return the amount of title IV funds for which it is responsible within 45 days.

Questioned Costs

\$18,722

Context

During our testing at the University of Nevada, Las Vegas, for five of thirteen students tested, and at the College of Southern Nevada, for two of twenty-five students tested, the date Title IV funds were returned documented by Common Origination & Disbursement was more than 45 days from the documented determination date of withdrawal.

FINDING 2012-06 - Special Tests and Provisions: Return of Title IV Funds for Withdrawn Students (Repeat finding 2011-08; 2010-07) - Continued

Cause

The refund of federal funds were deducted from the student account and student financial aid module in PeopleSoft, but were not uploaded to COD within the 45 day requirement in the automated batch process due to a technical error. The University runs an exception report at the end of each month resulting in students being identified outside the 45 day requirement from the determination date of the student's withdrawal.

Recommendation

We recommend the Institutions' develop and implement policies to ensure returned funds are accurate and timely.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. In order to address ongoing compliance procedures including accuracy and thorough and timely review, UNLV has added five positions (includes a Compliance Coordinator) to the Financial Aid and Scholarships processing unit in FY13. Also, a key position (Associate Director for Processing) was vacant due to turnover which is currently in the process of being filled. We fully expect these additional resources to ensure timely and accurate compliance procedures are maintained.

CSN Response

The College of Southern Nevada concurs with the recommendation. During the Fall semester 2011, CSN recognized that Financial Aid staff required additional training and support to ensure successful implementation of PeopleSoft. CSN contracted with Cedar Crestone (the NSHE consultant for PeopleSoft) to provide 30 days of on-site support to assist staff to develop accurate compliance-related queries. The technical error that resulted in the failure to upload to COD within 45 days has been corrected. Queries have been developed and are now run at various times during the semester to more accurately identify the dates of official and unofficial student withdrawals. During Spring 2012, additional Financial Aid staff members were reassigned to work on the R2T4 calculations to ensure timely completion, and at present additional staff is being hired to work specifically with the R2T4 calculations. These measures will ensure that return of Title IV funds will be calculated accurately and returned within the 45-day limit.

Condition

In one instance at the University of Nevada, Las Vegas, we noted the incorrect amount of Title IV aid disbursed was used in the calculation which resulted in an incorrect Title IV calculation and an incorrect amount of funds returned.

Questioned Costs

CFDA 84.063 - \$292

Context

During our testing at the University of Nevada, Las Vegas, for one of sixty students selected for testing, the return to title IV calculation had an incorrect amount of aid disbursed used in the calculation which resulted in an incorrect amount returned.

Effect

Returned Title IV funds were calculated incorrectly.

Cause

The student's Pell amount disbursed was excluded from student financial aid module when return calculation was generated due to a technical error in PeopleSoft, and; therefore, not included in return to Title IV calculation.

Recommendation

We recommend the University implement a more comprehensive review process of the return to Title IV form.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation. In the case of the one student calculation resulting in this specific finding, the original returned funds calculation was actually processed correctly as the PeopleSoft software automatically imports the correct amount of federal financial aid disbursed for the calculation. Unfortunately, in this case a rare petition by the student resulted in a change to the official withdrawal date after the return was initially calculated. This is a rare occurrence that the software is not able to 'automatically' adjust for and so the original return calculation remained when the return was initially recalculated with the revised withdrawal date. The return calculation was subsequently corrected and the additional funds were returned.

The additional staffing explained previously in response to finding 2012-06 will ensure more comprehensive review of similar issues will occur.

Federal Programs

Department of Education & Department of Health and Human Services
Student Financial Assistance Cluster – CFDA 84.268
Award year ended June 30, 2012

Criteria

34 CFR 685.102(b), 685.301 and 303. Institutions must report all loan disbursements and submit required records to the Direct Loan Servicing System (DLSS) via the Common Origination and Disbursement (COD) within 30 days of disbursement (OMB No. 1845-0021). Each month, the COD provides institutions with a School Account Statement (SAS) data file which consists of a Cash Summary, Cash Detail, and (optional at the request of the school) Loan Detail records. The school is required to reconcile these files to the institution's financial records. Since up to three Direct Loan program years may be open at any given time, schools may receive three SAS data files each month. (Note: The Direct Loan School Guide describes the reconciliation process.)

The school is required to reconcile these files to the institution's financial records.

Condition

The University of Nevada, Las Vegas did not perform the required reconciliation of SAS data file to the Institution's financial records. The University of Nevada, Reno performed the reconciliations between COD and the Institution's financial records, but did not document monthly variances investigated. The College of Southern Nevada did not perform the required reconciliation of SAS data file to the Institution's financial records for nine of twelve months.

Context

Testing at the University of Nevada, Las Vegas, identified that the required reconciliation noted above was not performed during the fiscal year ending June 30, 2012. Testing at the College of Southern Nevada identified that the required reconciliation noted above was not performed for nine of twelve months for the fiscal year ending June 30, 2012. Testing at the University of Nevada, Reno, identified that the required reconciliation documentation noted above was not performed during the fiscal year ending June 30, 2012.

Questioned Costs

\$0

Effect

The Universities do not comply with the specific requirements of Federal Regulation with respect to reconciling the SAS data file to the institutions' records.

Cause

At the University of Nevada, Las Vegas, due to implementation of PeopleSoft, new student financial aid system, there have been difficulties with information uploads to COD and the institution has not been able to reconcile the student financial aid system, SAS data file and general ledger system in total at any given point-in-time. The Student Financial Aid Office runs exception reports from the PeopleSoft system at least weekly, investigates, and clears exceptions but is unable to perform reconciliation in total on a monthly basis due to volume of system exceptions on a daily basis.

At the College of Southern Nevada, due to implementation of PeopleSoft, new student financial aid system, the institution was not able to reconcile the student financial aid system and SAS due to technical errors in PeopleSoft for nine of twelve months during fiscal year ending June 30, 2012.

At the University of Nevada, Reno the reconciliation is not being documented by the University. The Student Financial Aid office runs exception reports from COD, investigates, and clears exceptions but was not aware of the need to document the reconciliation in total on a monthly basis.

Recommendation

We recommend the Universities implement processes to ensure reconciliation is being performed and documented on a monthly basis.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNLV Response

UNLV agrees with this recommendation and priority will be given to implementing a documented monthly reconciliation of the Direct Lending account with the additional staffing explained previously in response to finding 2012-06.

For clarification, although a monthly reconciliation was not documented for review, the Direct Loan School Account Statement Reconciliation Reports (SAS) are being reviewed and compared to institutional transactional records daily/weekly for exceptions and corrected accordingly. Historical SAS transactions are also being kept to demonstrate compliance within this area for future audit review.

UNR Response

The Financial Aid Office has implemented procedures to ensure the direct lending reconciliation is performed and documented on a monthly basis. The Financial Aid Office has formed a loan team to work together to ensure compliance with direct lending reconciliation.

CSN Response

The College of Southern Nevada concurs with this recommendation. The technical errors that occurred during the implementation of the PeopleSoft system have been resolved. Additional procedures implemented within the department have also helped to facilitate the overall reconciliation process. Since April 2012, and through the start of the 2012-13 award-year the reconciliations have been successfully completed and documented each month as required. This recommendation has been implemented.

Criteria or Specific Requirement

34 CFR 685.203 (j). Maximum loan amounts. In no case may a Direct Subsidized, Direct Unsubsidized, or Direct PLUS Loan amount exceed the student's estimated cost of attendance for the period of enrollment for which the loan is intended, less - 1) The student's estimated financial assistance for that period; and 2) In the case of a Direct Subsidized Loan, the borrower's expected family contribution for that period.

Condition

During our testing of student files at the University of Nevada, Reno and at the College of Southern Nevada we identified three instances where the student's cost of attendance was incorrect in the calculation of eligible student financial aid.

Questioned Costs

CFDA 84.268 - \$4,239

Context

For one of sixty students selected for testing at the University of Nevada, Reno and for two of fifty-eight students selected for testing at the College of Southern Nevada, the amount included as the cost of attendance were incorrect.

Effect

The instance noted at the University of Nevada, Reno resulted in an over award of federal funds. The two instances noted at the College of Southern Nevada did not result in an over award of federal funds; however, the operating ineffectiveness of controls over this process and the incorrect application of the cost of attendance could result in a student receiving federal funds greater than their need.

Cause

One error at the College of Southern Nevada was a result of the cost of attendance defaulting to an incorrect amount due to the incorrect designation of the student's living status (with parent vs. off campus) in the student's account due to the PeopleSoft system not uploading the student's status from their ISIR correctly. The other error at the College of Southern Nevada resulted from a technical error in the PeopleSoft system, where the student's status changed from out-of-state to in-state before the census date, but was not updated for the student's budget. The error at the University of Nevada, Reno resulted from the student's status changing from out-of-state to in-state and three-quarter time to full-time before the census date, but was not updated for the student's budget. The University of Nevada, Reno's PeopleSoft system does not automatically update the student's budget due to these changes and the institution did not have a process in place to identify student's to be manually updated.

Recommendation

We recommend the Institutions ensure system edit checks are operating effectively and producing accurate information to avoid an over award of funds.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation. To find changes in a student's status that would affect their financial aid award, (e.g., change in living status--with parent vs. off campus; or change from out-of-state to in-state status; etc.) queries are being developed to run on a monthly basis to capture these changes. Once identified, the student's file will be reviewed to ensure that an over-award situation has not occurred. It is important to note that these types of changes do not typically occur after the census date and a monthly review will be sufficient to capture these rare student changes.

On another note, students who apply for a Direct Stafford Loan or College Work Study funds automatically have their Cost of Attendance reviewed to ensure that an over-award does not occur. This is a manual process undertaken by Financial Aid staff.

UNR Response

UNR concurs with this recommendation and the Office of Admissions and Records implemented a process to report student status changes to the Financial Aid Office when a student's status changes from out-of-state to in-state to ensure the student's budget is correct and any adjustment to a student's award can be performed.

Context

For three of sixty students selected for testing at the University of Nevada, Reno, the required communication was not sent. For two of twenty-five students selected for testing at the College of Southern Nevada, the required communication was either not sent or was missing required information.

Effect

The College did not comply with the specific requirements of Federal Regulations with respect to communications with students.

Cause

At the University of Nevada, Reno, due to implementation of PeopleSoft, new student financial aid system, the system was not set up to send notifications for the TEACH grant or Perkin's Loans. At the College of Southern Nevada, due to implementation of PeopleSoft, new student financial aid system, the system was not set up properly to send notifications with the required information.

Recommendation

We recommend the Institution develop policies and procedures to ensure these required communications are sent to all students receiving TEACH grant, Perkin's Loans funds, or all types of Direct Loans.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

UNR concurs with this recommendation. The Financial Aid Office has changed the set up in PeopleSoft so that communications are sent out to the TEACH grant and Perkin's Loans recipients to notify them of their rights to cancel their award.

CSN Response

The College of Southern Nevada concurs with this recommendation. The college has solved the technical problem associated with the 30-day loan notifications and the system is now working properly. The College of Southern Nevada did not submit Pell and Direct Loan disbursement information to the Department of Education's Common Origination and Disbursement (COD) in a timely manner.

Criteria

Federal Perkins Loan (34 CFR 674.19), Federal Work Study (34 CFR 675.19) and FSEOG (34 CFR 676.19) require submission of an annual Fiscal Operations Report and Application (FISAP) report to the Department of Education. This electronic report is required to be submitted annually to report on the use of funds received in the prior year and apply for funds for the next year for campus-based programs. FISAPs are required to be submitted by October 1 following the end of the award year. The OMB A-133 Compliance Supplement identifies key line items in the report that contain critical information.

Condition

We noted that the University of Nevada, Reno did not report accurate students numbers in Part II, Section D, field 7 (a) and (b) and Part V, Section F, fields 22 of the FISAP report. We noted that the University of Nevada, Las Vegas did not report accurate tuition and fee revenue in Part II, Section E, field 22 (a) and (b).

Context

The University of Nevada, Reno, and the University of Nevada, Las Vegas did not accurately complete the FISAP report

Effect

Reporting inaccurate information could impact the funding awarded for the next award year ending June 30, 2013.

FINDING 2012-12 - Reporting (Repeat Finding 2011-07) - Continued

Cause

At the University of Nevada, Reno, for the student headcount numbers in Part II, Section D, the Student Financial Aid office used estimated information from the Planning Budget and Analysis office and did not update the amounts to actual headcount as the change was not communicated to the Student Financial Aid office. The student headcount number in Part V Section F was keyed in error and was not noted in the review of the Report.

At the University of Nevada, Las Vegas, the PeopleSoft query used to produce the tuition and fees amount report in Part II, Section E was duplicating revenue balances and was not noted in the review of the Report.

Recommendation

We recommend the Institution educate those responsible for completing the FISAP report on the key line items in the report that contain critical information. Accurate supporting documentation for each of these items should be compiled and maintained.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

UNR understands this recommendation. The Office of Planning, Budget and Analysis will work cooperatively with the Financial Aid Office to ensure actual headcount numbers are provided each year for the FISAP.

UNLV Response

UNLV agrees with this finding. The query supporting the data in question has been adjusted and validated and the corrected information will be reported prior to the deadline of December 15, 2012. The focus of the review of the FISAP has traditionally been on the reconciliation and accuracy of the reported financial aid program data and so, unfortunately in this case, the institutional profile information that is the subject of this finding (which is not traditionally complicated to report) was overlooked in the review process. For future reporting periods; however, this item will receive the same level of review as the other data reported.

FINDING 2012-13 - Verification and Updating of Student Aid Application Information

Federal Programs

Department of Education
Student Financial Assistance Cluster
Award year ending June 30, 2012

Criteria or Specific Requirement

Per CFR 668.59(a) states that for the subsidized student financial assistance programs, if an applicant's FASFA information changes as a result of verification, the applicant or the institution must submit to the Secretary any changes to- (1) A nondollar item; or (2) A single dollar item of \$25 or more.

Condition

The institution did not properly update FASFA information as a result of verification.

FINDING 2012-13 - Verification and Updating of Student Aid Application Information - Continued

Questioned Costs

Context

During our testing at the College of Southern Nevada, it was noted that for nine of fifty-eight students tested, the institution did not properly update FASFA information. For three students, the number of household was not properly updated per the information submitted for verification. For three students, the amount of untaxed income or benefits was not properly updated on the ISIR to reflect what was reported on the verification worksheet and tax return. For one student, the amount of income verified was not properly reflected on the ISIR. For one student, the amount of untaxed income and benefits in addition to the AGI verified was not updated to be properly reflected in the ISIR.

During our testing at the University of Nevada, Las Vegas, it was noted that for six out of seventy-one students tested, the institution did not properly update FASFA information. For one student, the number of household was not properly updated per the information submitted for verification. For four students, the amount of untaxed income or benefits was not properly updated on the ISIR to reflect what was reported on the verification worksheet and tax return. For one student, the amount of AGI verified was not properly reflected on the ISIR.

Effect

The College of Southern Nevada and University of Nevada, Las Vegas is not in compliance with federal regulations related to items required for verification.

Cause

At the College of Southern Nevada, one instance was due to typographical error by personnel processing the information for which amount was entered into ISIR incorrectly. Other instances were due to oversight by personnel processing information. Oversight was a result of institution terminating an internal verification review checklist due to the implementation of PeopleSoft.

At the University of Nevada, Las Vegas, instances were due to oversight by personnel processing information.

Recommendation

We recommend the College implement policies to ensure updating of student aid application information is accurate.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation. With the implementation of the PeopleSoft system, new ways to verify had to be established. An internal verification review checklist utilized with the SIS system was initially discarded. Over time it was realized that a review checklist was helpful to ensuring verification accuracy, and the "old" list was modified to work with the new PeopleSoft system. Additional queries have also been developed and staffing in the verification area has been strengthened. Finally, a departmental audit function was started whereby the supervisor will pull a certain number of files to check for accuracy and to determine if there are common errors that might occur that would indicate that additional targeted training might be necessary. This multi-pronged approach will ensure that accuracy and timeliness are maintained.

UNLV Response

UNLV agrees with this recommendation. In order to address ongoing compliance procedures including accuracy and thorough and timely review, UNLV has added five positions (includes a Compliance Coordinator) to the Financial Aid and Scholarships processing unit in FY13. Also, a key position (Associate Director for Processing) was vacant due to turnover which is currently in the process of being filled. We fully expect these additional resources to ensure timely and accurate compliance procedures are maintained.

The additional staff will allow greater office administrative capability, training opportunities, and cross checking of work for accuracy to minimize future compliance concerns.

FINDING 2012-14 - Special Tests and Provisions: Enrollment Reporting (Repeat finding 2011-16)

Federal Programs

Department of Education

Student Financial Assistance Cluster – CFDA 84.268

Award year ended June 30, 2012

Criteria

Per 34 CFR 685.309, upon receipt of a student status confirmation report from the Secretary, complete and return that report to the Secretary within 30 days of receipt; and unless it expects to submit its next student status confirmation report to the Secretary within the next 60 days, notify the Secretary within 30 days if it discovers that a Direct Subsidized, Direct Unsubsidized, or Direct PLUS Loan has been made to or on behalf of a student who:

- Enrolled at that school but has ceased to be enrolled on at least a half-time basis;
- Has been accepted for enrollment at that school but failed to enroll on at least a half-time basis for the period which the loan was intended; or
- Has changed his or her permanent address.

Condition

The College of Southern Nevada had thirteen instances and the University of Nevada, Reno had one instance, where student statuses reported on NSLDS “Enrollment Detail” report did not accurately reflect student’s enrollment status as presented in the Student Financial Aid system.

Context

Testing at the College of Southern Nevada identified thirteen of twenty five students selected for testing where the status of “Less Than Half Time” was reported to NSLDS even though students were withdrawn from the institution.

For one out of twenty five students selected for testing at the University of Nevada, Reno, the status of "Withdrawn" was reported to NSLDS even though student had graduated from the institution.

Questioned Costs

\$0

Effect

The University did not comply with the specific requirements of Federal Regulations with respect to student status communications to the Secretary.

Cause

For the instance at the University of Nevada, Reno, the student's graduation was certified after the graduation file was uploaded to clearinghouse and no mechanism was place to ensure graduates certified after the original graduation file were reported to NSLDS within the required 30 days.

For the instances noted at the College of Southern Nevada, the students' enrollment status upload to the clearinghouse was incorrectly programmed in PeopleSoft to reflect students withdrawn stated as "Less than Half Time" instead of "Withdrawn"

Recommendation

We recommend the institutions develop policies and procedures to ensure student status changes are uploaded and reported accurately to the clearinghouse.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with this recommendation. In identifying the technical issues that related to the programming issue, CSN reached out to the other NSHE institutions that were experiencing similar errors. Multiple technical issues were remedied as they relate to the National Clearinghouse Enrollment Reports. Since those corrections/adjustments have been made this problem has been resolved. This recommendation has been completed.

UNR Response

The Office of Admissions and Records has developed policies and procedures to ensure student status changes are uploaded and reported accurately to the clearinghouse.

Condition

The College of Southern Nevada failed to report status changes for a period in excess of 30 days November 30, 2011 to January 21, 2012.

Context

Status changes for twenty-five students occurring at the College of Southern Nevada from December 1, 2011 to December 22, 2011 would not have been submitted to the clearinghouse within the 30-day compliance requirement.

Questioned Costs

\$0

Effect

The University did not comply with the specific requirements of Federal Regulations with respect to student status communications to the Secretary.

Cause

With the implementation of PeopleSoft, registration and student financial aid system, the College experienced a technical error during the upload of the enrollment files to the clearinghouse in December 2011 that required the College to make multiple upload attempts causing the upload to be more than 30 days from the last upload.

Recommendation

We recommend the College of Southern Nevada develop policies and procedures to ensure student status changes are reported in a timely manner and test the controls put in place to ensure they are operating effectively.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

CSN Response

The College of Southern Nevada concurs with the recommendation. Each academic year, CSN submits a transmission calendar and an enrollment verification report is forwarded to the National Student Clearinghouse on a monthly basis. Due to a technical issue that occurred at the end of Fall 2011 term, the enrollment verification report did not pull the required information. It took the combined efforts of the institution, consultant Cedar Crestone and NSHE System Computing Services to ultimately correct the problem. The National Student Clearinghouse was notified of the technical issues and after multiple attempts to send this report, the Fall 2011 file was finally successfully processed on January 26, 2012. The situation cited was an isolated one, and the technical issue has been resolved. This recommendation has been implemented.

FINDING 2012-16 - Special Tests and Provisions - Disbursements to or on behalf of Students

Federal Program

Department of Education(ED)
Student Financial Assistance Cluster
Award year ending June 30, 2012

Criteria

34 CFR 668.164(h) - Returning funds. (1) Notwithstanding any State law (such as a law that allows funds to escheat to the State), an institution must return to the Secretary, lender, or guaranty agency, any Title IV, HEA program funds, except FWS program funds, that it attempts to disburse directly to a student or parent but the student or parent does not receive or negotiate those funds. For FWS program funds, the institution is required to return only the Federal portion of the payroll disbursement. (2) If an institution attempts to disburse the funds by check and the check is not cashed, the institution must return the funds no later than 240 days after the date it issued that check

Condition

The University of Nevada- Reno has not implemented internal controls designed to ensure the timely return of Title IV funds to ED.

Context

During our testing at the University of Nevada- Reno, it was noted that no review of outstanding Title IV checks to students is performed to ensure checks not cashed are returned within the required 240 days after the date they are issued.

Effect

Although no compliance issue was noted during our testing, the operating effectiveness of controls over this process could result in the University returning required funds to the Department of Education in an untimely manner.

Cause

The Cashiers office, department responsible for preparing the listing of outstanding Title IV checks, has been short-staffed due to employee turnover. As such, these procedures have not been performed.

Recommendation

We recommend the University implement processes to ensure outstanding check listings for Title IV funds are reviewed to ensure timely return of funds to ED.

Views of Responsible Officials and Planned Corrective Actions (Unaudited)

UNR Response

As a result of this finding we are rewriting campus procedures for handling stale dated checks. This process will review the checks to determine if the students for whom the checks were issued involved Title IV funding. When and if such are identified the funds will be refunded to the Department of Education. In addition, we are redefining the responsibility for this review.
