Assumptions

Budget Reduction Phased in Assumptions.

For the Provost's Area, on average: 25% of the cuts achieved in FY 12; 75% of the cuts achieved in FY 13; 100% of the cuts achieved by FY 14

For all other areas, on average: 75% of the cuts achieved in FY 12; 100% of the cuts achieved in FY 13

FTE reduction assumption were calculated by taking the majors in impacted programs and their associated FTE plus the FTE of non-majors (including service credits) where the elimination of the department would result in lost FTE.

The rough estimate of FTE loss that have been projected in the revenue (optimistically) is 660 for FY 12 and 1,060 for FY 13

The losses in Non-Resident Tuition, in addition to those that have been experienced over the last several years, are assumed to be 10% of the FTE loss.

The enrollment reductions estimated above are optimistic and are likely to be greater than the estimate.

There will likely be restricted enrollment at the upper division undergraduate level as a result of limited upper division seat availability as a result of these reductions and previous reductions.

We will need to support students in impacted programs through all of FY 12, and in most cases through FY 13 as well. This will require an individual discussion with each impacted student and an appropriate agreement. This is important, but also required through our accreditation association.

Headcount Reduction Students: This lists current majors in each impacted program

FTE Reduction Students: This lists FTE for majors and service courses offered by impacted programs

Programs to be eliminated will be forwarded to the board at a later meeting (Fall 2011) as the process that is required by the Board has not yet been completed.

In planning for FY12-13 budget cuts, UNLV made a commitment to avoid eliminating tenured faculty if at all possible. In order to help achieve this goal, a Voluntary Separation Incentive Program (VSIP) was offered to all tenured, non administrative faculty. Approximately fifty tenured faculty, at a cost of \$8.3 million, took advantage of this program. Participating faculty will separate from the University by June 30, 2011. Although there will be a large one time cost for the program, mostly in FY12, the long term savings will allow UNLV to save tenured faculty. Decisions regarding the application of the VSIP savings as well as which positions must be replaced will be made over the next several weeks and months, and could impact some of the details of the broad budget plan displayed in this document, especially for FY13.

University of Nevada, Las Vegas

Summary of Add-Backs Based on Final FY 12 and FY 13 State Budgets

- *Save 18 of 36 degree programs currently identified for elimination.
- *Reduce direct impact on 2,400 students (majors and non-majors taking courses in these programs) down 1,750 students to 650.
- *Reduce projected course seat loss by 9,500, from 20,000 down to 10,500, with a corresponding reduction in FTE loss of 1,050 (down from 2,000).
- *Save <u>72</u> faculty positions (reduce cut from 136 to 64), which will have a significant positive impact on availability of upper division and graduate level course, and improving the opportunities for transfer students to be successful.
- *Reduce total position impacts from 333 (136 faculty) 192 of which are currently filled down to 236 total positions (64 faculty) 98 of which are currently filled (30 being faculty).
- *In the Academic areas, we will be able to add back the following programs and services, significantly improving the support for access and student success, as well as a number of programs that directly support economic and development:
 - -Significant portions of the Academic Success Center cuts, thus helping overall student success.
 - -The Philosophy department and program.
 - -The Professional Writing program
 - -Construction management
 - -Core programs and faculty in the Hotel College
 - -Core programs and faculty positions in the College of Sciences, including Chemistry, Math,
 - -Core programs and faculty in the College of Business
 - -The photography and print making programs
 - -The Athletic Training academic program
 - -The Nuclear Medicine program
 - Foreign Languages Language Resource Center
 - -Women's Studies Program

- -Significantly reduce the projected Law School fee increase, which is currently modeled at a 70% cumulative over the current levels, to 20% over current levels.
- -Significantly reduce the projected Dental School fee increase, which is currently modeled at a 34% cumulative increase over the current levels, to 22% over current levels.

^{*}In Athletics, save two programs originally scheduled for elimination.

Revised Budget Reduction Plan, 2011-13

Revised Budget Reduction Plan:

The 2011-2013 final approved budget for CSN resulted in the following changes:

- Infusion of additional general fund revenues;
- 13% increase in registration fee in the first year of the biennium (pending Board of Regents approval);
- inclusion of \$1.5M of equity funding over the biennium;
- "smoothing" of the general fund reduction between the two fiscal years;
- changes to the 5% salary reduction yielding a combination of salary cut and furloughs for employees; and
- revised operating cuts.

Revisions to initial plan:

Predicated on providing access to students and on student success, the revised plan addresses the priority of CSN to fulfill its access mission through quality instruction. In addition, the plan focuses resource allocation and reallocation on instruction, academic support, and student support services with the following specific restorations or enhancements:

- Continued operation at the Green Valley, Palo Verde, and Western High Tech Centers, the Mesquite Learning Center and Nellis AFB. Moapa will continue but with downsized staff. The Boulder City and Lincoln County sites will be closed over the biennium.
- Implement, upon Board of Regents approval, a registration fee increase in year 1 of 13% with a 15% carve out for financial aid.
- Restored access to 1,607 FTE students (original plan projected a loss of 2,478 through FY 13). CSN will still turn away an estimated 871 FTE students; this is in addition to the 5,300 students turned away in fall 2010.
- Restored an estimated 87 FTE positions, mostly instructional and classified support. The plan still reduces 73.58 state support positions (largely through attrition or vacancies).
- Reduced departmental operating budgets by 15% each year of the biennium.
- Eliminated of the massage therapy program.
- Restored priority positions in instruction, academic support, and student services that will provide continued or enhanced services to our students and community.

Great Basin College Revised Budget Narrative

- GBC is eliminating a total of 20 positions, including 15 professional (7 teaching faculty) and 5 classified this is down from 35.75 positions, including 14 teaching faculty.
- Student FTE and headcount is anticipated to be reduced by 70 FTE and 150 headcount, from FY2011 actuals, which is down from FY2010 by 57 FTE (2.9%), due to previous budget cuts.
- 1,265 more seats will be available for students over the biennium by not eliminating 7 teaching faculty positions, as was planned under the governor's recommended budget.
- Six temporarily filled instruction positions will be able to be re-recruited for as tenure track positions, giving more stability to the workforce.
- Operating cuts will be approximately \$325,000, across all functions of the institution, compared to \$573,000 from the governor's recommended budget.

 This will allow us to complete some maintenance and repairs that would have been deferred, and have some funds available for departmental operating.

Services to students will still be reduced but not as drastically.

Due to the timing and deadline of this request being submitted, this plan is preliminary and has not yet been reviewed by GBC's Budget Task Force or Curricular Review Committees.

TRUCKEE MEADOWS COMMUNITY COLLEGE ADD BACKS FROM STATE SUPPORTED OPERATING BUDGET – GENERAL FUND PLUS LEGISLATIVE ADJUSTMENTS

***RESTORES FUNDING TO SUPPORT STUDENT ACHIEVEMENT AND JOB READINESS

- FISCAL YEAR 2012 Increased funding of courses or programs, such as student success, supplemental instruction, and tutorial assistance, that support transition of students from developmental to college-level course work.
- FISCAL YEAR 2013 -- Continuation of increased student success programs.
- RESTORE ONE COHORT THAT HAD BEEN ELIMINATED FOR THE RADIOLOGIC TECHNOLOGY PROGRAM -- Impact is on fiscal years 2012 and 2013. Restores access for 10 full-time students and eliminates the need to reduce two full-time-equivalent part-time faculty members.
- CONTINUE VETERINARY TECHNICIAN PROGRAM -- Impact is on fiscal years 2012 and 2013. Eliminates projected impact on two full-time faculty members, 8 sections, and 20 students.

***FULL-TIME EMPLOYEES

No additional layoffs are anticipated in 2012 or 2013 with the possibility of replacing employees (faculty, classified and professional) that support student achievement and job readiness.

***STUDENT ACCESS

With these restorations there will be approximately 2,000 unduplicated students that will again have access to courses.

Western Nevada College Summary of Add-Backs Based on Budget Proposal

 Restoration of services at Douglas campus Partial restoration of academic program offerings at Fallon campus 	FY12 FY12
Reduction of cuts to LOA budgets	FY13
Restoration of library positions and services	FY13
• Initiation of searches and replacement of the following academic faculty positions:	FY12 and FY13
English (2 positions)	
Construction Management (fall 2011 search)	
Automotive (fall 2011 search)	
Business (spring 2012 search)	
Sociology (spring 2012 search)	
Nursing (spring 2012 search)	
Restoration of assessment and business office positions	FY13

System Administration Add-backs Compared to Original Template

- 1. Restore 0.3 FTE position in FY 2012 and 0.6 FTE position in FY 2013 to the Nevada Industry Excellence Program
- 2. Restore Academic Affairs position
- 3. Continue position identified for elimination due to retirement in FY 2013.
- 4. Eliminate need to layoff one position in FY 2013
- 5. Partially restore operating/travel including funds necessary to continue stipends associated with Regents Awards

Add-backs Compared to Original Template

- 1. The additional funds for Sponsored Programs Office would be for the overall operations, the funding provides the personnel to support grant funded programs and assist on all programs.
- 2. The funds would also allow for the match of the Space Grant program for the administration of the federal award.
