<tbody>
<tr>
<td>Changes sent in by UNR, WNC. No changes at this time from TMCC and UNLV.</td>
<td></td>
</tr>
</tbody>
</table>

## NEW BUSINESS

### 1. Gen Ed Core Waiver and Transfer (TMCC)

When a student earns an Associate’s degree and transfers to a University, the Associate’s degree satisfies the lower division core requirements. What if one of the courses used for the Associate’s degree was an exception at the community college? Will it still satisfy the core at the University?

As long as the student earned a degree, it will satisfy the core requirements. If the student transfers before they earn the degree, the situation is different.

### 2. Automatic Course Waivers from DARS to SIS (UNLV)

With course transfers from other schools, if there is a course which satisfies a prerequisite, is there a way to automatically satisfy the prerequisite, or does a manual waiver always have to be done?

NSC has been experimenting with using pseudo courses and have them transfer to SIS. UNR has attempted this and found the pseudo course doesn’t pass to SIS. UNR has manually changed the articulation for each student and made a note.
### 3. New ERP and its impact on DARS

PeopleSoft has a degree audit module. Does this mean that testing of DARSweb will stop?

Until implementation is completed, institutions will continue to use DARS. SCS will continue to implement Student DARSweb and will also implement DARSweb Interactive Audit should the institutions decide to go forward with that product in light of iNtegrate.

### On-Going Projects

<table>
<thead>
<tr>

</table>
### 3. Interactive Audit

Click on “IA Step by Step Encoding” link under “Encoding Tips”

- 7/13 See item 1
- On hold from 11/17/06 meeting.
- This will be considered after students have access to DARSweb.

### 4. Update on NCAA encoding. Who’s doing progress toward degree? Is UNLV using CAi?

- 4/13/07 – For UNR, this item is lower priority than it once was, but would like it kept on the list. No updates from UNLV.
- 3/9/07 Update - UNR and UNLV have no progress updates at this time.
- UNLV still in testing phase, progress on hold due to graduation processing.
- UNR DARS does not want to pursue this with their athletics department until a decision is made regarding the new ERP vendor.

- 7/13/07 – Still on hold.
- 6/08/07 – No new interest, UNR/UNLV on hold.
- On hold - 11/17/06 meeting.

### 5. Can we have minors flow over from SIS to DARwin?

Change #30148, to research possibility of passing more than one program from SIS to DARwin.

- 8/10/07 – Still on hold.

**This is important to UNLV, would like to know if there is a possibility of making it active?**

- UNLV has minors on the PLAN table; UNR does not, but may have soon. Both currently process exceptions to add minors to the DARS.
- UNLV, CCSN, UNR currently use a manual process to keep DARwin and SIS in sync.

- 6/04/07 – Gear Up, extending SIS hours and institution name changes (CCSN and WNCC) are currently taking priority over this item. Still on hold.
- On hold pending SCS resources.
